## GREAT BATTLE IS RAGING FROM DANUBE TO THE BLACK SEA RUSSIANS OPEN NEW OFFENSIVE NEW YORK STREET CAR STRIKE IS BROKEN, CLAIM OFFICIALS APPROPRIATIONS NEAR TWO BILLION MARK

London, Sept. 8.—The beginning of a great battle in South-eastern Rumania is reported unofficially from Petrograd. The Russians are said to have taken the offensive over the entire Dobruja front, attacking the invading Bulgarians, and Germans from the Danube to the Black Sea.

An undated Bulgarian official report announces important victories for the invaders in this region. It is said the German and Bulgarian forces have captured the fortified town of Dobruja, 50 miles southeast of Bucharest and three towns on the Rumanian Black Sea coast near the Bulgarian frontier.

Sofia concedes that the Rumanians have occupied the important Hungarian town of Orsova.

The official Petrograd report today indicates that the Russians have been embarked on an important enterprise on the northern end of their front. It was announced yesterday that Russians had crossed the Dvina north of Dunek and occupied part of a German position, but it appeared at that time that only a small force was involved, perhaps for reconnoitering purposes. The announcement of today, however, shows that these forces were of sufficient size to engage in sustained fighting with the Germans, whose repeated attempts to dislodge them are said to have been unsuccessful.

On the front below Lemberg in Eastern Galicia a further retreat by the Austro-German forces is reported by the Russian war office. They are said to have fallen back to the western bank of the Gut-Lipa the last river before Lemberg, to the south which is available for defensive purposes.

**Rather Watching Struggle For Combles**  
Paris, Sept. 8.—Emperor Wilhelm, according to La Liberté's correspondent at the front is watching in person the fierce struggle that is going on for the possession of Combles.

The chief gain of yesterday's battle, the correspondent says, was that of the French general, Kluge's forces, which reached the railroad running from Reims to Combles and held it for a distance of two and one-half miles, with the result that the German line of communications behind the Somme are now entirely in the hands of the entente allies.

**The Young Lady Across the Way**

The young lady across the way saw in the paper that the battle of the Somme was a battle of attrition. She was very much interested in the battle and she was very much interested in the battle.

Chaulnes, says the correspondent, is only about two-thirds of a mile distant from the French line and is expected to fall at any time.

The capture of Berny-en-Santerre enables the French to dominate Barleux, which is the last point of support of the German second line of defenses and completes the encirclement of Denicourt park, for which a stubborn struggle is going on.

**Austrian Troops Have Withdrawn**

Vienna, Via London, Sept. 8.—Austrian troops have withdrawn before a threatening Rumanian envelopment to the heights west of Olah to Plitz, southwest of Donara Walra and twenty miles west of the Rumanian border, says the official statement issued at the Austro-Hungarian headquarters.

On the Russian front the Austro-Hungarian troops between the Zela and the Dnieper rivers also have been withdrawn.

**Rumanians Occupy A Hungarian Town**  
London, Sept. 8.—Rumanian troops have occupied Orsova, an important Hungarian town on the Danube, according to a dispatch in The Times from Bucharest today.

An unofficial dispatch from Vienna on Wednesday announced that Orsova had been taken by the Rumanians. Orsova is one of the principal ports on the Lower Danube and has considerable commercial importance. It is a few miles above the Iron Gate of the Danube, where the river leaves Hungary and forms the boundary between Rumania and Northeastern Serbia.

**British Raid German Trenches**

London, Sept. 8.—British troops, southwest of Lille, last night, raided the German trenches southeast of Guiney, and near Pichebourg l'aveue inflicting severe losses on their occupants, says the British official statement made this afternoon.

**Germans Fail To Regain Ground**

Paris, Sept. 8.—Renewed and violent attacks were made by the Germans on the Somme front last night in an effort to regain ground won by the French. The war office announced today that the German assaults were futile, the French holding their ground everywhere.

The German attacks were made in strong force on the front between Berny and Chaulnes, south of the Somme. Fighting was especially heavy between German assaulters and Chaulnes. The Germans proceeded their infantry assaults with intense bombardments. The Germans also made an effort to regain the ground won by the French yesterday on the Verdun front between Vaux-Chapire wood and Chenois, where nearly a mile of the German first line positions were carried. The official report says the German onslaughts were unsuccessful.

**French Retain Part of Trenches**

Berlin, Sept. 8.—(Via London)—French and German troops were engaged in infantry fighting yesterday in the region south of the river Somme in

## SENATE ORDERS PROBE OF AN ALLEGED FOREIGN LOBBY

Washington, D. C., Sept. 8.—A resolution by Senator Curtis, of Kansas, directing the senate lobby committee to investigate the activities of the alleged foreign lobby opposing retaliatory provision of the revenue bill against Canadian fisheries was passed today by the senate.

The resolution was adopted after the senate had disposed of a similar resolution by referring it to a committee. The new resolution adopted provides for a report at the next session of congress.

Senator Reed, Democrat, a member of the lobby committee, said he believed it was high time for the American government to show other nations that it regarded as offensive any efforts to influence legislation in congress.

Senator Lewis, Democrat, urged investigation it should be recent demands of Japan on China. He declared that apparently there was in retaliation to the attitude of this country toward admission of the Japanese. Russia, he said, was a party with Japan and sought retaliation because of the abrogation of the American commercial treaty.

## APPROPRIATIONS

Washington, Sept. 8.—Congress, at the session closed today, appropriated exactly \$1,626,439,210 which with obligations and authorizations for the future, makes the total \$1,858,384,485. These figures announced in speeches by Representatives Fitzgerald, New York, Democrat, and Gillett, Massachusetts, Republican, were defended by the former and attacked by the latter, as "half a billion dollars greater than appropriations made in any session of a Republican congress."

France says the official statement issued today by the German army headquarters staff. The French were repulsed with great losses with the exception of a point to the west of Berny where, the statement adds, some portions of trenches remained in the hands of the French.

**Bulgarians Capture Rumanian Strongholds**

London, Sept. 8.—An undated official Bulgarian report received here today says that the Bulgarian forces which are invading Eastern Rumania, have captured the fortress of Dobruja (Bazardjik) and the seaports of Baltoik, Kavarna and Kaliakra.

Rice condition, 91.2; acre yield, 36.0. Hay acre yield, 1.64. Sugar beet condition 88.7; acre yield, 10.0.

**ESCAPED PRISONER IS ARRESTED**

Gallipoli, O., Sept. 8.—Frank Casey, formerly of Gallipoli, who escaped Tuesday from Mountville, W. Va., penitentiary, was arrested here today.

**HUNGER MAY FORCE HIM TO SURRENDER**

Chadron, O., Sept. 8.—Hunger, it is believed, will be the means of bringing into custody Clifford Belding, who went on a rampage in Bainbridge last Tuesday, and after keeping police officers under fire all night escaped into a dense thicket. Officers believe Belding will soon come out of his hiding place in search of food.

## 252 BILLS PASSED

Washington, D. C., Sept. 8.—During the session of congress closing today, 17,300 bills and 642 resolutions were introduced in the house. Of these 252 bills became laws and 33 public resolutions were adopted in addition to 160 private bills and resolutions passed.

## PLAGUE SPREADS

Toledo, O., Sept. 8.—Health authorities expressed alarm last night when ten new cases of infantile paralysis were reported during the day. Victims are being isolated at the city contagious hospital as fast as reported. There are now more than one hundred cases in the city.

Youngstown, O., Sept. 8.—Youngstown's first fatal case of infantile paralysis occurred today in the death of Oscar, five, son of J. U. Hulin, school principal.

## Suffrage Support Unpledged

Atlantic City, N. J., Sept. 8.—The National American Woman Suffrage Association convention today defeated by an overwhelming vote a resolution that the association in the present national campaign support only those candidates for national offices who pledge their support to the passage of the Susan B. Anthony amendment for a federal constitutional amendment. The resolution was offered by Mrs. Raymond Robinson, Chicago, and a number of other delegates.

New York, Sept. 8.—With subway and elevated trains being operated apparently on normal schedule, traction officials insisted today that New York's strike has been broken. Fifty per cent of the Green cars of the New York Railway Company's surface system were running the company announced.

Union leaders claimed at noon that 3,500 men were on strike on the subway and elevated roads, and 4,000 men on the Green car system.

Theodore P. Shonts, president of the Interborough, announced that all of the men who have struck on the New York Railway line, owned by the Interborough, could have their positions back with their former places of seniority restored if they resigned from the union by 1 p. m. tomorrow.

When the surface cars were started out at six o'clock this morning the situation was in charge of James T. Waddell, known as the king of strike breakers. Mr. Waddell came here from Chicago last night, making the run by special train in twenty hours. He promised to crush the strike in forty-eight hours.

"I have 3,500 strike breakers here," said Waddell, "and 2,700 of these are now working. They are more than enough to control the situation."

Subway and elevated trains ran last night and this morning as usual. Fearing that the strikers would be able to interrupt this service, thousands of persons yesterday patronized the multitude of jitney automobiles that mobilize at every important center, but today the traveling public returned to its accustomed routes by subway and "L."

A number of elevated trains were attacked during the early morning but in no case was there any approach to a mob riot. Strike sympathizers on the roofs of tenement houses bombarded the trains with bottles and bricks and in one instance with pistols. None of the bullets took effect, but several passengers were cut by missiles and broken glass. The police surrounded the blocks from which the missiles came and searched the roofs but made only a few arrests.

Rumors of a plot to blow up the subway caused the police to maintain a watch at every underground station but the subway trains ran during the night and early morning without molestation.

The strike thus far, according to Mr. Waddell, has cost the traction company \$200,000.

## RAIL EARNINGS SHOW INCREASE

Washington, Sept. 8.—Sixty of the largest steam railways earned a net revenue of \$545 per mile during last July, an increase of \$43 a mile over July, 1915. A summary made public today by the Interstate Commerce Commission shows net revenues totalled \$41,353,921 compared with \$36,328,588 in July, 1915. The largest gains were made in the east.

## PRESIDENT ISSUES STATEMENT

Washington, D. C., Sept. 8.—In a statement issued following the adjournment of congress, President Wilson called attention to the helpful and humane legislation passed and declared that while he regretted additional legislation dealing with the recent dispute between the railroads and their employees had not been completed he had every reason to believe the question would be taken up immediately after congress reassembles.

The president's statement follows:

"A very remarkable session of congress has just closed, full, as all recent sessions of the congress have been, of helpful and humane legislation which constitutes contributions of capital importance to the defense, the economic progress and the wholesome life of the country.

"It is to be regretted that the session could not have continued long enough to complete the program recently projected with regard to the accommodation of labor disputes between the railways and the employees.

"But it was not feasible in the circumstances to continue the session any longer and therefore only the most important parts of the program could be completed.

"The rest, it is agreed, has merely been postponed until it can be more maturely deliberated and perfected. I have every reason to believe that it is the purpose of the leaders of the two houses immediately upon the reassembling of congress to undertake this additional legislation. It is evidence that the country should be relieved of the anxiety which must have been created by recent events with regard to the future accommodation of such disputes."

Washington, Sept. 8.—Congress adjourned sine die this morning at ten o'clock, concluding a session, record breaking in many respects, with appropriations, and authorizations for the future running well toward two billion dollars.

The Sixty-Fourth Congress's first session began last December. President Wilson went to the capitol for the adjournment formalities. Only a small proportion of members were on hand to watch the session die.

At 9:59 o'clock the senate adjourned sine die.

At ten o'clock the house adjourned sine die.

Last night both houses accepted the conference report on the emergency revenue bill without record votes and the senate, before recessing an hour after midnight, ratified the Danish West Indies purchase treaty. The general deficiencies appropriation bill also was approved, as reported by conference.

The session ended without final action on Senator Owen's corrupt practice bill, on which debate persisted in the senate yesterday and last night up to the time the revenue bill report was taken up.

**CONGRESSMEN ASSEMBLED SLEEPY-EYED**

As senators and representatives assembled sleepy-eyed from brief rests following the arduous night sessions both houses marked time while awaiting the final formalities of the greatest session of congress in many respects in history.

In closing addresses, while awaiting the arrival of President Wilson, references to the long program of legislative achievement, dominated chiefly by national defense preparations at a cost of more than \$600,000,000, were made. Democrats lauded the record of the session and commended it to the country while Republicans sought to criticize, alleging extravagance in spite of the appropriations for defense.

As the gavel was suspended to sound the end of the session, recapitulation of the nine months work showed that there had been appropriations for the year 1917 for expenditures of the government more than \$1,600,000,000 and that authorizations had been made for future expenditures which would bring the grand aggregate of appropriations almost to the \$2,000,000,000 mark. Administration champions in formal reviews of the congress answered Republican taunts of a "two billion congress" with declarations that the "United States is a two billion dollar country."

When the house convened at 8:30 a. m. Speaker Clark, Demo-

## REVIEW OF THE WORK OF 64TH CONGRESS

Washington, D. C., Sept. 8.—The first session of the Sixty-fourth congress which adjourned today was concerned chiefly with national defense.

When the gavel fell congress had directed reorganization and re-equipment of the army and navy for defense of the country at the unprecedented cost of \$655,000,000 with authorizations that will increase the total in three

years to nearly \$800,000,000. With all other expenditures, appropriations were brought to the grand total of \$1,626,439,210, the greatest aggregate in the country's history and exceeding that for the last fiscal year by more than half a billion dollars.

Expenditures, necessitated by preparedness and the calling into action of military forces to meet the Mexican emergency demand-

ed revenue legislation in the closing days of the session. Congress responded by doubling the normal tax on incomes, creating an inheritance tax, munitions tax and miscellaneous excise taxes to raise \$265,000,000 and by direct sale of \$130,000,000 Panama Canal bonds.

Congress established a tariff commission; a government ship-

ping board to rehabilitate the American merchant marine; a Workmen's Compensation Commission to administer a new uniform compensation law; a farm loan banking system; a Child Labor law; enlarged the system of self-government in the Philippines and enacted many other important laws which had been contemplated by the administration.

**Session Disturbed By Foreign Complications**

The session was disturbed throughout by frequently recurring threats of foreign complications from the European war and imminence of one time of a diplomatic break with Germany; interference with American mails and commerce, invasion of American soil and killing of Americans by Mexican bandits, and danger of

actual war with Mexico.

Later in the session trouble arose in the senate over the nomination of Louis D. Brandeis, of Boston, to succeed the late Justice Lamar as a member of the Supreme Court. Weeks of investigation and deliberation by the Judiciary committee ended in confirmation of Mr. Brandeis by a large majority.

Columbia tonight "The Secret of the Swamp," a five act comedy drama with nothing but laughs. The biggest laugh Henry Ford and his runabouts have ever figured in—and Ford jokes run far into the motion pictures of Bluebird Photo-plays and the result will be shown at the Columbia tonight under the title of "The Secret of the Swamp." The joke is not a long drawn out affair, told in serial form and presented in agonizing details—it comes right at the finish of the play with a "punch" that means one big shout of glee. All through the cleverly contrived photoplay there are ripples of laughter, and comforting choruses of delight, but the "big laugh" comes late to send the audience home rejoicing. And without introducing any blood-curdling episode, or far-fetched sensations, the individual auditors are bound to be unanimous in the opinion: "That's about the best picture I ever saw."

Dustin Farnum as "Davy Crockett" at the Lyric tonight, Marie Dressler and Chaplin tomorrow.

The romantic love of a handsome clear-eyed woodsman for a daintily beautiful lady of quality is the silver thread through the rough home-spun of "Davy Crockett" the Pallas-Paramount photoplay coming to the Lyric tomorrow.

Dustin Farnum as "Davy Crockett" the young hero of the frontier is tantalized and baffled by a maiden whom he could and finally did carry off bodily.

The loveliness of his regard and the sweet daintiness of her affections make these scenes incomparably beautiful.

The story has the spice and hair-raising thrill of the Indian border tales and the quaint charm of the mannerly days of Washington. This photoplay should not be missed as it is one of the sweetest, most fascinating and most thrilling picture stories ever told.

Charlie Chaplin in "The Vagabond" and Marie Dressler in "Tillie's Tomato Surprise" make up the big comedy program at the Lyric tomorrow.

Five Act Drama At Arcana Theatre Today

Those who revel in strong western features will no doubt rejoice to learn that Manager Potts of the Arcana theatre has a Red Feather Universal play entitled "The Seekers," in five acts, for his Friday offering. This play features that bewitching star of stage and screen, Flora Baker De Haven, in a wonderful dramatization of Olga Printzlan's story. "The Seekers" is one of those thrilling dramas in which climaxes come with every foot of film. One is kept on the anxious seat from beginning to end and yet the story is so clearly told that the plot is easy to follow. "The Seekers" is one of the Universal Film company's biggest productions, and while in practically all cities in the state the admission ranges from 10 to 25 cents, Manager Potts will charge his popular price, 5 cents.

At The Temple

"Let Katie Do It," a five reel drama, and "The Village Blacksmith," a rattling good comedy, will be shown at the Temple theatre on Eleventh street tonight. Seven reels on the program, so don't miss it.

This is a Triangle program which insures it is a topnotcher. The drama is a strong western feature and the comedy is a Keystone masterpiece. Don't miss this big feature program.

At The Sun

Between one and two thousand people saw the Southern beauties, who are playing a week's engagement at the Sun this week, put on "Up in a Ferris Wheel" when they played here last year, and it is a safe bet that at least ninety percent will try to get back and see them again, for commencing today and tomorrow, they are going to give the people of Portsmouth some real Tab entertainment. Up in a Ferris wheel is a comedy that will keep you laughing from the rise of the curtain until the fall. There will be an entire change of costumes, songs and dancing. The Castle Square Quartette will render some new songs, which we are, sure will please. Tomorrow (Saturday) there will be a children's five cent matinee and they have a good program arranged for them. Beginning next Monday, the time of the night shows will be changed. The first show will start at seven, second at eight-thirty, prompt. The management has arranged with the General Film Co. for first-run pictures, changed daily, to be run in with the musical comedy, making two shows in one, at one price of admission.

## ACCUSE BOY OF TAKING JEWELRY FROM HOUSE

Russell Kegley, a 14 year old boy of near Seventh and Brown streets, Friday, was ordered by Police Chief Henry Clark to report to Judge T. C. Beatty, of the juvenile court, Saturday morning for looting the home of E. T. Beard of No. 1657 Seventh street a few days ago.

The boy is accused of stealing two gold watches, a diamond bracelet, brooch, two signet rings and some cuff buttons, of a total value of close to \$100, from the bottom of a trunk belonging to Mrs. Beard. The watches have been recovered from a jeweler to whom the boy sold them for \$1 each. The bracelet and one of the rings have not yet been recovered.

The boy entered the Beard home while Mrs. Beard was taking a bath. She heard some one stirring about the house but supposed it was some neighbor woman. After dressing she emerged from the bath room just in time to see the boy, whom she recognized, run from the house.

The boy is a son of a respectable widow but has been in trouble before, having once appropriated to

his own use some money he collected from a sister, and purchased a lected while employed with Gro. flashlight with the money though per Walter Norris. He is also said he always vehemently denied this to have taken two dollars once theft.

## Frank Pratt At Sun

## Graves Williams Will Join Football Squad

Graves Williams, son of Mr. and Mrs. Grant Williams, Gallatin street, will leave Sunday for Philadelphia, Pa., where he will join the Varsity football squad of the University of Pennsylvania. The squad will go into full practice at the Bucks County Country Club, Langhorne, Pa. There are twenty-two men in the squad.

This year Pennsylvania expects to have a championship team. Most of the old men will return. Graves Williams played a consistent game at full back last year, winning praise from eastern critics.

Thousands of people go through TIMES WANT ADS every night. They read them with profit.

## Baptists Will Meet

The Portsmouth Baptist association will meet at the New Church, near Harrisonville this evening. The association will hold regular sessions until Sunday, when it adjourns. Rev. Freeman Chase, pastor of the Sciotoville Baptist church will preside.

## HANG PICTURE OF LATE CITY TREASURER

A neatly framed photograph of the late City Treasurer David L. Edwards was hung on the wall at the public service department office Friday morning.

## Rev. Powell Wires He Will Be Here Sunday

The Rev. E. Ainger Powell, pastor of the All Saints church, wired The Times from Boston Friday morning that he finds it possible to be here Sunday and he will conduct his usual services at his church on Sunday, September 10.

The services were called off Thursday as Rev. Powell believed that it would be impossible to reach the city. There will be choral eucharist

at 10:30 and evensong and address at 7 p. m. Rev. Powell wires, "Members please note the change and attend."

## Our Buyer Has Returned From New York City

Found the market to be very scarce of seasonable merchandise and the cry for immediate shipments being heavier than ever, the reason, we suppose, to make sure of getting the merchandise, the manufacturer being up against it, the mills slow in producing materials and the cost going up every hour in the day. Well to make the story short, it was a matter of locating those that have materials on hand and are prepared to take care of immediate wants, that was no easy task indeed, a hard struggle from morning to night every day of his stay in New York, but finally rewarded with success, securing better merchandise than ever and while he paid considerable more for them the styles are worthy of consideration and promises a showing this Fall worth while your attention. Every day's express is bringing some and we have ready sales for most of them. You'll make no mistake by making your visit more frequent to our store these days and secure choice style. The prices, like usual, \$15.00 to \$65.00 in suits, \$7.50 to \$55.00 in coats, values that are unmatched beyond exaggeration and we'll let you be the judge.

## We Particularly Call Your Attention

to the new Silk Waists in all wanted materials, shades and styles. Priced \$2.50 to \$6.00 and also Taffeta Skirts to retail at \$6.50 and up. An early call will make it most profitable. Let us acquaint ourselves with your wants and we'll gladly put them aside for you if not quite ready to buy.

### SCHOOL OF SALESMANSHIP

The Anderson Bros. company Friday morning resumed their school in salesmanship, the firm's 33 employees being members of the four classes conducted by E. C. Hood. A special school room to take care of these meetings has been built on the third floor.

## REVIEW

(Continued From Page One)

In the week before adjournment congress was occupied with legislation which prevented a threatened nation-wide railroad strike. President Wilson, after futile negotiations with officials of railroads and railroad brotherhoods, submitted the controversy to congress, recommending legislation to avert the strike and to prevent such emergencies from arising in the future.

After a week of consideration, during which the president visited the capitol daily, conferring with administration leaders, a bill was passed to establish an 8-hour day as a basis for pay of railroad workers, the present rate of pay for ten hours work not to be reduced and the men to receive pro-rata pay for work in excess of eight hours, and providing an investigation by a special commission into the effect of the 8-hour day and railroad revenues.

### Important Legislative Enactments Of Session

Most important legislative enactments of the session, exclusive of laws for national defense, included the following:

Government Ship Law: Appropriating \$50,000,000 to operate ships in foreign and coastwise trade and when unable to lease them to individuals or private corporations.

Child Labor: Denying interstate commerce to products of mines and quarries employing children under 16 years of age and factories, mills, canneries and other establishments employing children under 14 years.

Rural Credits Law: Establishing a Farm Loan Board in control of a system of Farm Loan Mortgage Banks.

Workmen's Compensation Law: Providing uniform sick and accident benefits for employees of the Federal Government, and benefits to dependents in case of death.

Emergency Revenue Law: Providing for doubling the normal income tax on the lowest class; making an additional surtax ranging from one per cent on that portion of incomes exceeding \$20,000 to 13 per cent on amount of incomes in excess of \$2,000,000; levying a graduated tax of one to ten per cent on inheritances ranging from \$50,000 to

\$5,000,000; a ten per cent net profit tax on manufacturers of munitions, five per cent net profit tax on manufacturers of materials entering munitions; a license tax on actually invested capital stock of corporations capitalized at more than \$93,000; wine, beer and liquor excise taxes and miscellaneous stamp taxes.

Good Roads Law: Providing for co-operative Federal aid to the states for construction of highways, and appropriating \$75,000,000 to be spent in five years.

Postal Savings Law: Amendment increasing the amount which individuals may deposit from \$500 to \$1,000 with interest and an additional \$1,000 without interest.

Federal Reserve: Amendments, including amendment to the Clayton anti-trust law permitting officers and directors of member banks to become officers and directors of not more than two other non-competing banks; amendments permitting national banks to establish foreign branches, liberalizing regulations for discounting commercial paper and permitting member banks in towns of 5,000 or less population to act as agents for insurance companies.

Railroad Legislation: Creation of a joint sub-committee of senate and house Interstate Commerce committees to investigate necessity for further legislation for railroads and the Interstate Commerce Commission, question of government ownership of public utilities and comparative worth of government ownership as against government regulation.

Tariff: Creation of a non-partisan Tariff Commission of five members to investigate and advise congress on tariff revision; repeal of the free sugar provision of existing tariff law; amendments increasing duties on dyestuffs to encourage manufacturing dyestuffs in the United States; enactment of an anti-dumping provision to prevent dumping of foreign made goods at less than foreign market prices; authorization for the president to retaliate against foreign nations prohibiting importation of goods from the United States by laying an embargo against imports from offending nations.

Cotton Futures Act: Providing a prohibitive tax on cotton sold for future delivery in fictitious or wash sales.

Philippines: Law to provide for a more autonomous government of the islands, enlarging self-government, reorganizing election laws, establishing an elective senate and promising independence whenever, in the judgment of the United States the Philippine people demonstrate capability for it.

Railroad Eight Hour Day Law: Establishing 8 hours as the standard for reckoning the compensation of railroad employees operating trains in interstate commerce after January 1, 1917, and providing for a commission of three to investigate the effects of the 8 hour standard, present wages not to be reduced during the investigation nor for thirty days thereafter, and work in excess of eight hours to be paid for at a pro-rata rate.

### Appropriations For All Purposes

Appropriations for all purposes were:  
Agriculture, \$24,948,852; Army, \$267,596,530; Diplomatic and Consular, \$5,355,096; District of Columbia, \$12,841,907; Fortifications, \$25,748,050; Indian Affairs, \$10,987,644; Legislative and Executive, \$37,925,690; Military Academy, \$1,225,043; Navy, \$313,300,095; Pensions, \$158,065,000; Postoffice, \$322,937,679; River and Harbor, \$40,598,135; Sunday Civil, \$128,299,285; Permanent Appropriations, \$131,074,673; Shipping Bill, \$50,100,000; Deficiencies, \$72,500,000; Rural Credits, \$6,100,000; Good Roads, \$6,000,000; Floods, \$2,000,000. Grand total, \$1,637,553,682.

### WONDEROIL

For Itching, Irritation or Pain  
There is Nothing More  
Reliable.

For cuts, scalds, bruises, lumbago, rheumatic pains, stiff joints, itching, irritation or pain anywhere, Wonderoil the antiseptic healing balm has been successfully used for the last half century.

Like the Rock of Gibraltar, this greatest of healers has stood the test of time and as the years go by it is more and more extensively used and relied upon in thousands of homes.

Scores of mothers would no more think of going to bed at night without Wonderoil on the shelf, than they would without a lock on the front door. It is safe, sure and pure and always ready. Put up from a physician's prescription and endorsed everywhere.

Wonderoil is sold in this city by Fisher and Streich and by reliable druggists everywhere. Due to a popular demand Wonderoil can now be obtained in both 25 and 50 cent boxes. The 50 cent size will be found most economical.

If for any reason you have never used Wonderoil, send today to M. E. Raymond, Inc., Ballston Spa, N. Y. for a generous free sample. You will be glad you did.

Fred Schmidt, of the plumbing firm of Schmidt-Watkins company, and wife expect to spend Saturday and Sunday with relatives at Greenup, Ky.

### Loan Advantages

10. You can pay your loan in full at any time. With our DEFINITE CONTRACT PLAN you can always do this. With a straight loan you cannot always do this. This feature is of great value if you should want to sell and the buyer should want to pay cash. Straight loans are some times sold to outside parties and this causes many inconveniences. Our loans are never sold and we will always find us at our place of business during business hours and we will assist wherever we can.

Information cheerfully given concerning the ROYAL DEFINITE CONTRACT PLAN.

## Is Your Watch Cleaned and Oiled Regularly?

Unless your watch is thoroughly cleaned and oiled every other year you should not expect it to serve you satisfactorily. Day and night, year in and year out, you expect your watch to keep perfect time by winding it daily. Heavy locomotives, automobiles and other engines and machinery—working less than half as much as your watch—constantly require new repair parts, cleaning and oiling. Your watch is a delicate bit of machinery running continually, with never a holiday. Naturally, the oil will gum up and accumulate dust and grit. Then, instead of acting as a lubricant, it wears and cuts like a file. When your watch gets in that condition, the parts most exposed to wear may be permanently injured. Insure your watch by having our experts attend to it. We do only first-class work, which we fully guarantee. You don't want a blacksmith to repair your watch at any price. Our charges are quoted before any work is done, and in no instance do we charge more than the work is worth. Special attention given to watches sent us from out of Portsmouth. Our new catalogue is free for the asking.

## THE MARKETS

## NEW YORK STOCKS

New York, Sept. 8.—Operations for the day account with short covering in rails, steel and Marins, resulted in general gains and some new maximums during today's session. Reading, Marins and Coppers guided the list through the busy forenoon. Reading advancing to 100 1/2 within half a point of its recent best. Heavy receding in coppers had no effect on inspiration, which attained the new record of 61 1/2. United States Steel and other representative stocks were firm under similar pressure, but motors and utilities lost ground. Moderate trading in "United Kingdom" notes listed today, was the only feature of the steady bond market.

Investment stocks led the market to higher levels at today's active opening accompanied by the metal group and papers. Reading rose a point with as much for Union Pacific and Norfolk and Western, while New York Central and Erie were in sale demand. Shipping shares also improved, International Paper preferred rose over four points with two for Union Bag and paper preferred. United States Steel came forward later with motors and allied issues.

Adverse crop conditions had some effect upon prices in the final hour although leading rose to 114 1/2 during that period. The closing was irregular.

**CHICAGO GRAIN AND PROVISIONS**

Chicago, Sept. 8.—Lower cable quotations today tended to weaken the wheat market here. Opening prices which ranged from 1 1/2 to 1 3/4 up with December at 1 1/2 to 1 3/4 and May at 1 1/4 to 1 3/4 were followed by slight gains but then a moderate setback all around. The close was about 1 1/2 to 1 3/4 higher with December at 1 1/2 to 1 3/4 and May at 1 1/4 to 1 3/4.

Corn eased off with wheat. After opening 1/2 lower to 1/4 advance the market displayed a general inclination to sag.

Prices in corn closed nervous, gains of 1/4 to 1/2. Liberal buying for a large export concern strengthened oats. Weakness in other cereals was ignored. Provisions gave way with hogs. Most of the transactions were in hogs.

**British Aeroplane Lost In Raid**  
London, Sept. 8.—A British aeroplane was lost in a raid yesterday over St. Denis, in Belgium, thirty miles southeast of Brussels.

"Yesterday afternoon naval aeroplanes attacked the enemy aerodrome at St. Denis," says an official communication issued today. "A large number of bombs were dropped with good effect. One of our machines failed to return."

"During the same afternoon a naval aeroplane successfully attacked and brought down in flames a hostile kite balloon near Ostend. The attack was carried out under anti-aircraft fire of the heaviest kind, but the pilot returned safely."

## CONGRESS

(Continued From Page One)

up nudges for congress. It is a strange predicament that we are in in this country. Many run for office, few get office and everybody abuses those who do get the office. I think that the reason that they hop on congress is that it is impersonal and does not hurt any one's feelings in particular. Some day I am going to take a whole hour to discuss the relations of an American congress to the American people."

Such an opportunity for a "well earned rest." Officially he informed them that he had nothing further to communicate to the congress. When they left the president the chief executive was joined by Secretary Lansing.

Senator Kern notified the senate at 9:55 o'clock that the president had nothing further to communicate.

Thereupon Senator Nelson of Minnesota offered a resolution of thanks to the vice president for his impartial conduct in presiding over the senate. The resolution was adopted. Thereupon the senate adjourned sine die at 9:59 o'clock.

## 'PRISONER' ENJOYS RIDES IN AUTOMOBILE, CLAIMED

Columbus, O., Sept. 8.—United States District Judge John E. Sater today began an investigation of a report that Charles L. Dye, Marietta saloon keeper, convicted of selling liquor without a federal license and sentenced to six months in the Ross county jail at Chillicothe, has not been under lock since being sent to Chillicothe. According to a story reaching Judge Sater, Dye has had great liberties, driving about the country in a high powered automobile, which he is alleged to have purchased since going to Chillicothe to begin his sentence.

## Rev. L. J. Hopper To Become Pastor Of Coshocton Church

The many friends in this city of the Rev. L. J. Hopper, pastor of the United Brethren church for the past four years, will regret to learn that he will not return to Portsmouth.

From Westerville, O., where the Southern Ohio U. B. Conference is being held, came the news Friday that Rev. Hopper would go to Coshocton, Ohio, and become pastor of the U. B. church of that city. It is rumored that Rev. Barnegrove, of Logan, will succeed Rev. Hopper here.

Rev. J. H. Harris, a former Portsmouth minister, but who is from the Fifth Avenue church of Columbus, is the conference superintendent at Westerville.

With the acceptance of a pastorate in Coshocton Rev. Hopper will have to become affiliated with the East Ohio Conference of the U. B. church and will go to Cleveland to join that conference. He and his most estimable family have many friends here who will deeply regret their departure from this city, but will wish them unlimited success in their new field of endeavor. Rev. Hopper has made a decided success here, and stands high as a pastor and a man.

The Industrial parade is going to be one of the biggest things at the Greater 1916 Korn Carnival. John McMillan, chairman of the committee on arrangements, Albert Marling, chairman of the parade committee and R. E. Thomas, secretary of the Business Men's Association, have been working upon the formation of the parade for several days. Manufacturers, wholesalers, retailers and all citizens seen have consented to enter the parade. Many firms have already signified their intention of entering floats. Many expect to have their employees in the line of march. It is to be a gigantic representation of the industrial and commercial life of Portsmouth.

THANKS FRIENDS

Mr. O. A. Smittle, who for the past five years has conducted the Temple Theatre on Eleventh street, has sold out to Messrs. J. F. Potts and Tom Chucules. During the time he conducted the Temple Mr. Smittle has enjoyed a splendid patronage and has given the public a fine run of pictures. On retiring he wishes to thank the people of the East End for their liberal patronage, and especially to thank those who stayed by him during all this time. Mr. Smittle will now devote his entire time to the Temple Billiard Parlor in the Vorker Block, of which he is the proprietor. S-11

Be Sure

Don't blame the backward school child. Be sure. Be positive that those childish eyes are not at fault. Be thoughtful. No child can learn whose organs of vision convey faulty impressions. Through these eyes pass the visions that are conveyed to the brain. If the eyes are wrong the visions will be wrong. The brain will register wrong, and the grades that come to the parents will be low. Don't blame the child until you are sure the eyes are right.

Be safe. Be positive that the one who looks after that pair of young eyes understands his business. Be sure that he has knowledge plus experience, plus skill, plus a sense of real responsibility. The writer of this article in his first school days often had to sit at the teacher's desk in order to read the blackboard. He knows what poor eyes mean to the child, and how to correct them.

The time to stop trouble in future years is to act now.

## How to avoid Operations

### These Three Women Tell How They Escaped the Dreadful Ordeal of Surgical Operations.

Hospitals are great and necessary institutions, but they should be the last resort for women who suffer with ills peculiar to their sex. Many letters on file in the Pinkham Laboratory at Lynn, Mass., prove that a great number of women after they have been recommended to submit to an operation have been made well by Lydia E. Pinkham's Vegetable Compound. Here are three such letters. All sick women should read them.

Marionette, Wis.—"I went to the doctor and he told me I must have an operation for a female trouble, and I hated to have it done as I had been married only a short time. I would have terrible pains and my hands and feet were cold all the time. I took Lydia E. Pinkham's Vegetable Compound and was cured, and I feel better in every way. I give you permission to publish my name because I am so thankful that I feel well again."  
—Mrs. Frank Benson, Marionette, Wis.

Detroit, Mich.—"When I first took Lydia E. Pinkham's Vegetable Compound I was so run down with female troubles that I could not do anything, and our doctor said I would have to undergo an operation. I could hardly walk without help so when I read about the Vegetable Compound and what it had done for others I thought I would try it. I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Lydia E. Pinkham's Sanative Wash and used them according to directions. They helped me and today I am able to do all my work and I am well."  
—Mrs. Thos. Dwyer, 223 Milwaukee Ave., East, Detroit, Mich.

Bellevue, Pa.—"I suffered more than tongue can tell with terrible bearing down pains and inflammation. I tried several doctors and they all told me the same story, that I never could get well without an operation and I just dreaded the thought of that. I also tried a good many other medicines that were recommended to me and none of them helped me until a friend advised me to give Lydia E. Pinkham's Vegetable Compound a trial. The first bottle helped, I kept taking it and now I don't know what it is to be sick any more and I am picking up in weight. I am 20 years old and weigh 146 pounds. It will be the greatest pleasure to me if I can have the opportunity to recommend it to any other suffering woman."  
—Miss Irene Zimnapura, 1923 Manhattan St., North Side, Bellevue, Pa.

# Willis Laws Assailed; Herricks Alleged Lavish Use Of Funds In Campaign Hit; Wilson, Cox And Pomerene Endorsed

Columbus, O., Sept. 8.—The platform adopted by the Ohio Democratic State Convention yesterday follows:

The representatives of the Ohio Democracy, in adjourned session, declare:

1. We heartily endorse the platform of principles enunciated by the national Democracy at the St. Louis convention, and pledge to its nominees our most loyal and unflinching support.

2. At the June session of this convention it adopted the following resolutions:

"Woodrow Wilson, during his administration as President of our country, by his courage, wisdom and statesmanship, has successfully guided the nation through the greatest crisis in the history of our republic. We heartily endorse his administration and approve its wise and beneficent measures, which have upheld the dignity and preserved the peace of our country and brought unbounded and unparalleled prosperity and happiness to all our people. His reelection will insure the continuance of those happy and prosperous conditions now prevailing all over the land and advance the honor and greatness of the republic."

We repeat and reaffirm that declaration now, and add that every measure and policy adopted and enacted by his entire administration merits, and, we believe, will receive in full degree, the approval and commendation of the citizenship of this nation, as they will contribute to the permanent and ever-increasing contentment, prosperity and happiness of all the people, so that it may be truly said of him that it is not a true vision of the world which fails to recognize the unchallenged leader of the American Democracy—Woodrow Wilson—as the ablest and greatest statesman of his day and generation.

## PRRAISE POMERENE

3. At our June session we also declared that President Wilson has had in United States Senator Allen Pomerene a loyal, steadfast and able supporter, and a skillful adviser in all of the great accomplishments of his administration. He has stood firmly for the maintenance of the rights, dignity and honor of America. We commend his public service. We approve his record.

Since then, and at the August primary election, the Democracy of this state has renominated Senator Pomerene. We unhesitatingly extend to him the assurance of our earnest and active support. His senatorial career has added alike to his own fame and greatness and the fame and greatness of our proud commonwealth, which he has served so well and faithfully.

We challenge the earnest attention of the voters of this great commonwealth to the methods by which the nomination of his opponent, Myron T. Herricks, was secured. The stupendous sums of money officially admitted may him to have been expended in an all-out effort to the political decay of the state, and indicate such a trend toward the debauchery and corruption of the past as to call for public condemnation at the polls.

## ENDORSE COX

4. At our June session we also heartily endorsed and approved the Democratic state administration of Governor Harman and Governor Cox, which promoted the welfare of the people of this state, inaugurated and executed reforms of permanent and lasting influence, and lifted up the state to the first and foremost rank in the galaxy of the American commonwealths. We now declare our pride and approval of the two state administrations, and we invite the attention of all voters

of the state to the candidates of the Democracy for state office selected at the August primary election. They enjoy—as they deserve—our full confidence, and should receive at the election in November the support of a reunited Democracy, as well as the support of all other citizens of the state who are desirous of contributing to the material and moral welfare and progress of Ohio. The Democracy of the state has again summoned to its leadership that highly gifted and splendidly equipped statesman, James M. Cox. His former administration will be vindicated by his triumphant election in November, and then it will no longer be said of republics that they are ungrateful.

We especially commend to the voters of the state our candidate for State Auditor, A. V. Donahay, capable, efficient, intelligent, of high personal character and perfect integrity, the public interests of the state imperatively require his reelection.

Judges James G. Johnson and Maurice H. Donahay, our nominees for Judges of the Supreme Court, have established a judicial standard in that tribunal, reflecting honor upon the judiciary of the state, and by their legal attainments and irreproachable lives have inspired the respect and confidence both of the bar and people of the state. Their reelection will uphold the best and highest traditions of the Judiciary of Ohio.

## ATTACK G. O. P. RULE

5. At our June session we denounced the present state Republican administration as the most incompetent and inferior in the whole history of the state. We asserted that it came into power through falsehood and hypocrisy, and that its only mark of distinction was that it had not enacted a single measure to uplift the state or advance the welfare of its people; and that it had degraded the public service and dishonored the state, and that the just retribution of an incoming people would fall upon it at the November election. The subsequent history of the state administration confirms the accusation we then made against it. It daily grows weaker and more incompetent. Its hypocrisy is more conspicuously emphasized in all its acts and deeds, and it seems to have specialized in the appointment of unfit and incompetent officials.

6. The Parrott-Whittemore tax law of the present state administration has crumbled and collapsed, not only because of its own inherent weakness, but because of its unjust and arbitrary provisions, its manifest failure to place the taxable property of the state upon the tax duplicate, and because it has introduced anarchy in the entire taxation system of the state. Its enactment was not in good faith, but only a subterfuge. We pledge ourselves to its repeal, and the substitution in its place of a taxation system in accord with just and enlightened principles of government, and that will deal fairly and honestly with the taxpayer.

Governor Foraker, McKinley, Harman and Cox all urged the appointment rather than the election of assessors. We believe that time and experience will persuade the voters of Ohio of the wisdom and justice of their views. Meanwhile, without surrendering our convictions, we pledge the Democratic legislature, when chosen, to enact no law that will take away from the local taxing subdivisions the power of selecting their own assessors.

## SUPPORT SMITH LAW

7. We stand for the rigid enforcement and maintenance of the Smith one-cent tax law, but within the limitations of its provisions we pledge the Democracy to enact such appropriate legislation as will enable the municipalities of the state to provide adequate revenue to meet and discharge all their financial obligations and to exercise all their legitimate municipal functions.

8. We strongly urge and recommend the enactment of legislation making it mandatory for county treasurers to refund all duplicate payments of tax money coming into their hands and the depositing of all such duplicate payments in a separate county fund provided for that purpose.

9. We confirm the opinion of the Republican State Attorney-General that the Case road law, passed by the Willis administration, has more than 100 fundamental errors, and we further pronounce it bunglesome and inefficient. Under its operation the extensive and far-reaching policy of good roads development maintained by Governors Harman and Cox has been obstructed and retarded. We favor liberal expenditures for good roads and a plan that will enable the state to co-operate with the Federal government in carrying out the national legislation on this subject in such manner as to profit to the fullest extent by the opportunities afforded by that law.

10. We regard the Taggart ruling made with the consent and approval of Governor Willis which gives liability insurance companies the right to indemnify employers of labor against the consequences of a criminal act as a reflection on the fair name of the state and an index to the antagonistic policy of the present state administration toward the workmen's compensation law. The Ohio Democracy, as the parent of this law, proposes to preserve it against the enemies within and without the statehouse, and to further improve it as future events may suggest.

The last Democratic administration by peaceful adjustment procured reduction in fire insurance premiums amounting to over \$1,000,000 annually. That circumstance convinces us that there is no need of the state going into either the fire or the life insurance business.

There is no doubt that the Malays are among the laziest people in the world. Except in rare cases they will not take the trouble to learn when they are young, and afterward, if they have learned, they will not exert themselves to apply their knowledge to any object which requires a sustained effort. That they possess effort is known to any one who has seen Malays engaged in any enterprise which savors of sport. They do not mind the trouble if there is only some risk and excitement in the work.

There will be a special meeting of the Board of Elections this evening at seven-thirty o'clock. An abstract of the candidates in the district will be prepared.

**Censured Presidents.**  
Twice has a president been censured, once by the senate and once by the house of representatives. Jackson was censured by the senate for violation of the constitution and laws in the removal of government deposits from the United States bank. After three years of protest the resolution of censure was expunged from the Journal of the senate.  
Tyler was censured by a committee of the house for his improper veto of the tariff bill of 1842. He protested, but as a senator he had voted against Jackson's protest, and the house sent him a copy of the senate resolution against the reception of Jackson's protest.

### Mr. Harper Explains About Zaph Sewer To Health Board

Inside information concerning the construction of the Zaph sewer in Sunnyside addition was given by City Engineer Samuel G. Harper, in a short talk before the Board of Health. The meeting was held Thursday afternoon.

### BE ENERGETIC NOT TIRED OUT

Without Health Man Can Not Expect to be Contented.

When a man who loves life throws out his chest, pulls his clear front between smiling lips, and says, "I feel great—I can eat anything," he has struck the keynote of content and is envied by his fellows.

But when that same man, only a short time before, is all run-down, nervous, and can't trust his stomach to accept even the plainest fare, and then comes back into his own, he is so happy that he wants to make life better for the "other fellows" who suffer as he once did.

It is just this feeling that has prompted many thousands of men and women throughout the United States to tell of the benefits they have derived from Tanlae, the great reconstructive tonic, invigorant, appetizer and builder of torn down tissues. Tanlae appeals to the best people everywhere. Nowhere in the history of proprietary medicines has there been found a preparation that has equalled Tanlae's record for merit.

In every community there are a legion of nervous, run-down men and women. Not really sick, perhaps, but affected with a nervous, debilitated condition, so that they become countless things are wrong with them. They have frequent headaches, are sluggish in mind and in body, and they have not enough real energy to make themselves self-reliant in even the little things of life.

They need something that contains the right nerve food, tonic, invigorant and appetizer which will awaken their sleeping energies. They also need something to speed up their assimilation to a normal state, something to bring back old vitality, self-reliance and a cheery view of life.

Tanlae will meet these needs. It has proven beneficial in cases of stomach, kidney and liver ills, which are the base of these common disorders. It fortifies one to better encounter fatigue, exertion and the daily grind of life. As the proof of the pudding is in the eating, so is the proof of Tanlae in the taking.

Tanlae is being especially introduced in Portsmouth at the Fish and Streich Pharmacy where the Tanlae Man daily explains its merits and the benefits that may be expected from its use.

sewer on Chillicothe street, between Tenth and Eleventh streets. One of the members inquired if the sewer could not be constructed at once, so that the citizens could get relief from unsanitary conditions.

The engineer walked over to the side of the room, closed a door and resumed his former position.

"The committee on streets looked at it like you gentlemen," said Mr. Harper. "It takes considerable time to get the ordinance required ready. It takes possibly two weeks for the estimates to be accepted. Then there is another four weeks before the legislation is ready and possibly another two weeks before the contract is awarded."

"The street committee said in the beginning that when we got a petition to build a small sanitary sewer, which was needed at once, that the thing to do would be to go ahead and build it; then bring in the legislation. The sewers are all built by schedule. It does not mean any more money to the contractor. There is not a cent difference between this method and when the contract is awarded. The other way we make the estimate and appropriate the money, then later, if there is too much money, we make another ordinance transferring it back.

"It eliminates a long, endless piece of red tape and gives the people relief. The street committee told me to put in such sewers without the usual legislation and that I should notify them. They have been. The other way it is six or seven weeks before the sewer contract can be awarded. This way, the sewer is in the ground and in use before the legislation is passed.

"With all due respects to the mayor, I don't care to get into the newspapers anymore. When a gentleman takes a crack at me, I expect to crack back."

"This is the way the Zaph sewer for which I have received criticism," concluded the engineer.

"There was a big hulla-balloo raised about the Zaph sewer," declared Mayor Kays. "Last year a \$5,000 sewer was built in the Sunnyside addition along Sunset avenue. This work was on private property, without the owner's knowledge. The work was paid for in December and it was completed in January. We have a precedent to go by, if we want it."

The mayor then explained that it was the policy of his administration to accomplish the best results with the means possible.

In a report on bakeries inspected, Dr. W. W. Smith, health officer, stated that the William Carter Bakery, New Boston, had been found in good condition. New screens were ordered to be installed. The repairs ordered installed at the Adams and Bender bakeries have been installed.

A rigid inspection of tenement buildings will be the next work taken up by the board.

The employment of city scavengers to glean the city garbage was proposed by Mayor H. H. Kays. The members of the board were asked to investigate this idea, which, the mayor says, is being successfully operated by other cities.

Concerning unsanitary conditions existing on their properties, C. W. Hamann, 2123 Eighth street, William Barbee, 629 Front street, and Miss Vera Crawford, 425 Second street, will be given ten day notices to comply with instructions of the board. Resolutions were passed allowing the foregoing time.

J. H. Goodpastor, city dog undertaker, and the members of the board are at variance over the bill for August. Goodpastor says he removed 64 dogs, while the chemical works claims he only submitted forty-two. A voucher for twenty-one dollars, payment in full for 42 dogs, was allowed. The other 29 cases are to be investigated.

Dr. W. W. Smith reported 2 cases of diphtheria, 7 cases of scarlet fever, 3 cases of typhoid fever and 96 unsanitary conditions inspected. The schedule allowed was \$374.73.

City officials express confidence that they will settle the

Zaph sewer controversy and the matter of opening Twentieth street from Chillicothe street to Sunset avenue at the adjourned meeting of city council next Wednesday night.

Director Ralph Calvert of the public service department, explained to council at its meeting last Wednesday evening his reason for holding up payment of the Zaph sewer. He said he was absolutely ignorant of the construction of the sewer, not having authorized it himself and that he had been averse to paying for it until the alley through which it ran was first dedicated to the city, unless council should raise no objection to the payment.

Mr. Calvert was assured by council that inasmuch as the legislation had been prepared, the money appropriated and with the possibility of the parties involved in the dispute regarding Sunset avenue getting together at an early date it had no objection to him paying for the sewer work. Mr. Calvert then declared his intention of presenting the voucher amounting to \$345.07 to the city auditor for payment.

Mr. Calvert frankly acknowledged having authorized the construction of a sewer on private ground once but said it was done in order to abate a nuisance. This sewer he said was located on E. J. Zeigler's property near Third and Madison streets and the taps Mr. Zeigler took out almost equalled the rest of the sewer.

City Engineer Samuel G. Harper told council that the street committee had authorized the construction of the Zaph sewer and said he did not see any reason why the Zaph alley should not be dedicated to the city. Mayor Kays said it was about time the matter of dedicating the streets and alleys in the addition should be settled and he purposed doing all in his power to get the parties together.

Council assumed the attitude that the matter should be adjusted as early as possible but without any expense to the city.

### Hair Pulling Match Between Women; Other Police News

A little remark, perhaps innocent, uttered, led to an exciting hair-pulling match between two women at Tenth and Findlay streets Thursday evening that was followed by several arrests.

James Hawkins and wife, Bess Hawkins, and Adam Collins, a roomer at the Hawkins home, were all charged with disorderly conduct in police court as a result of the fight with Mrs. Elsie Wikoff, the young widow of the late Gilbert Wikoff, as the prosecuting witness against them.

It developed at the hearing that Mrs. Wikoff and a little neighbor girl had started for a short walk. Mrs. Wikoff testified that just as they were passing the Hawkins home Mrs. Hawkins made a remark to Collins, who was sitting on the porch, that a person who would go with a Greek was low enough to do anything. She said she stopped and asked Mrs. Hawkins if she meant the remark for her, thinking, perhaps, the woman had seen a Greek come away from her home that morning, he having called to ask her to work for him at his ice cream parlor on Gay street. She explained to the court that she had worked for him

once before for a few weeks. Mrs. Hawkins assured her that the remark was not intended for her. She said she started to apologize and turned to go, when, without warning Mrs. Hawkins jumped from the porch and seized her, while her husband knocked her down and kicked her, later holding her feet while Mrs. Hawkins beat her with a brick. She exhibited bruises on the forehead and neck.

Mrs. Hawkins and husband told an entirely different story of the trouble. According to them, Mrs. Hawkins had been talking to Collins about his niece flirting with a Greek. She said after she assured Mrs. Wikoff that she was not meant, saying, "I didn't know you had a Greek friend, 'Elsie,' the latter 'threw up' to her that she had also talked about her (Mrs. Wikoff) keeping company with an uncle of her late husband. Mrs. Hawkins said she herself was under a doctor's care, having just left her sick bed two days before, and that her husband ordered Mrs. Wikoff away three times, saying his wife was in no shape to argue or fight, but Mrs. Wikoff replied that the sidewalk was free and that she would not move

away for anyone. Mrs. Hawkins admitted jumping off the porch to force the other woman to go, but said they grabbed each other's hair about the same time. She said she succeeded in getting Mrs. Wikoff down and was beating her when her husband pulled her off.

Collins, it developed, walked to his room as soon as Mrs. Hawkins jumped down off the porch. He was dismissed by the mayor, as was Mr. Hawkins, but Mrs. Hawkins was fined \$10. She objected so strongly against the decision of the court that he threatened to hold her in contempt and make her share the female ward with two colored women prisoners. She finally quieted down and arranged for payment of the fine.

Henry K. Parker, white, who claimed Miranda Wheatley, colored, robbed him of \$20 at Mrs. Gene Pettiford's home, was given an unconditional scoring by the mayor.

Parker was reminded that on Tuesday while he was squandering his money among colored women in the North End, his wife, Mrs. Elizabeth Parker, who was divorced from him three weeks ago, had been forced to send her little children to school hungry, they not even having the common necessities of life at home.

Parker was fined \$35 for visiting a house of ill-fame and given a similar fine on a separate charge of disorderly conduct for abusing his wife the day after she got her di-

# FILE PETITION TO ANNEX NEW BOSTON TO CITY

## Village Electors Take Steps To Have Voters Give Decision

Electors of Portsmouth and New Boston are to decide at the November election whether the village of New Boston will be annexed to Portsmouth.

A petition signed by 164 electors of the village of New Boston, which is over twenty-five per cent of the votes cast at the last municipal election, was filed with Thomas O'Neal, clerk of the village council Thursday evening by Charles Dixon asking for the annexation of the village to Portsmouth. A certificate was filed with the local board of election at the same time, signifying the intention of the petitioners to ask for annexation.

J. F. Johnitz, deputy clerk of the Board of Election, gave the petitioners a certified copy of the votes cast in the last municipal election. The number of votes cast was 523.

Upon filing a petition containing twenty-five per cent of the electors voting at the last municipal election and the notification of the board of election, the question is then submitted to the voters of both the village and Portsmouth for final decision. Under the statutory requirements, the citizens will decide the question in the November election.

Should New Boston be annexed to the City of Portsmouth the total population, according to the last census would be 31,253. The population of Portsmouth was 27,872 and New Boston 3,411.

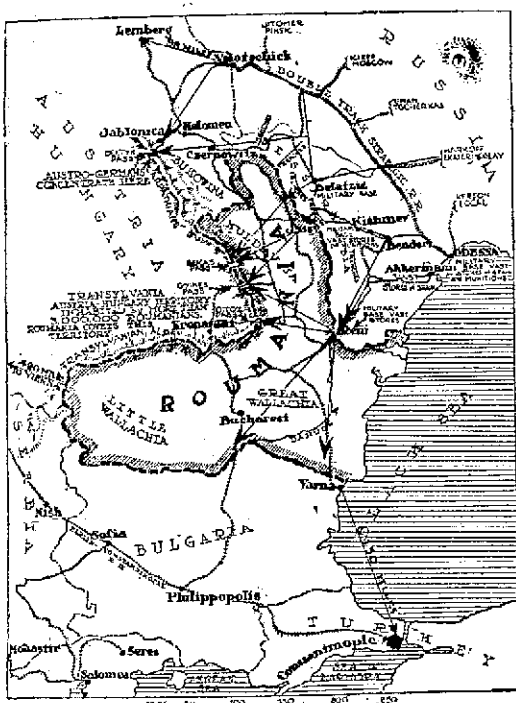

The corporation boundaries would then extend from the Scioto river to a point near the new filtration plant and from the Ohio river to a line running east from the Hempstead hospital, meandering around Stearnsville and terminating near the new filtration plant.

The total tax duplicate of the city, should New Boston be annexed, would be swelled to a mark near forty million dollars. The 1915 duplicate for the city was \$22,813,300 real and \$10,909,340 personal, giving a total of \$33,722,640. The duplicate for New Boston in 1915 was \$2,189,750 real and \$1,402,860 personal, totalling \$3,592,610.

## RUSSIAN PLANS FOR CAMPAIGN IN RUMANIA

How the Russians have planned an extensive campaign in Rumania is shown in the accompanying map. The lines with arrow heads indicate military routes across Rumania, which will be taken by Rumanian and Russian forces in attacking Austria, Bulgaria and Turkey. The correlation between these routes and the double track strategic railway from Volotschik to Odessa, is easily seen. With this railway Russia should find little trouble in keeping her armies in Rumania and the Rumanians well supplied.

## MANAGER O. R. FARIS SENT TO SANDUSKY

As quite a surprise to O. R. Faris, manager of the Western Union Telegraph Company's local office, came a notice Friday of his transfer to Sandusky, O.

Mr. Faris will be obliged to leave Sunday in order to assume his new post Monday morning, an unexpected situation necessitating the hurried transfer.

The new position carries with it a nice increase in salary. Mr. Faris has been in Portsmouth only since January, coming to this city from Pomeroy to succeed Ralph

Gibbons as manager. A Mr. McLaughlin of Postoria, will succeed him as manager of the Portsmouth office. Mr. Faris' family will not move to Sandusky until later.

## SOCIETY

The West Portsmouth W. C. T. U. met at the home of Mrs. E. C. Hood, 718 Eighth street, at 2:30 o'clock Thursday. Mr. Hood read the scripture lesson. Miss Mary Peckles lead in prayer, then a song "Count Your Many Blessings" was sung, after which the meeting was opened by the president. The minutes were read by the secretary, Mrs. Charles Storck. The treasurer urged the payment of dues that she might be able to send the state dues for the county by the thirtieth of September. Dues were paid to the amount of fifteen dollars. An interesting report of the year's work was given by the superintendents of the different departments. The president then read her annual address, urging a greater devotion to the cause. All present then joined hands and sang "Bless Be The Tie That Binds" after which the president announced that the election of officers for the coming year would be held.

Miss Peckles made the motion that the rules to vote by ballot be suspended and elect by acclamation, which resulted in the old officers being retained, whereupon Mrs. Storck resigned as secretary and Mrs. E. C. Hood was elected in her place, and Mrs. Anna Fowler for vice president. The superintendents for the different

## BUILD UP YOUR BLOOD

It is a hopeless task to try to restore your health while your blood is deficient in quantity or quality.

The blood circulates throughout every portion of the body except the hair and nails. It takes the nourishment from the food and distributes it to the various muscles and organs; it takes also any medication that is administered through the mouth. The blood is the only means by which medicine can reach the nerves. If the blood is thin its carrying capacity is lessened because it is the red corpuscles in the blood that carry oxygen and other needed constituents to the various parts of the body.

Dr. Williams' Pink Pills for Pale People increase the red corpuscles in the blood. They enable it to absorb more oxygen, to carry more life and strength to the weakened organs. In any disease in which the patient becomes thin and pale Dr. Williams' Pink Pills can be used successfully to combat the anemia and build up the health and strength.

"Building Up the Blood" is a book, full of good information. Every mother and every growing girl should have one. It is sent free on request by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills. Price 60c.

## Detectives Arrest A Negro Accused Of Depot Robbery

On Tuesday, July 11, the railroad station at Glen Jean, Pike county, used as a transfer station by the D. T. & I. and N. & W., was burglarized. Eleven pairs of shoes, four shirts and other wearing apparel was stolen. Part of the shoes were

brought to this city and sold to a second-hand dealer, who furnished N. & W. Detectives Robert Reno and Andy Leslie with a description of the man.

Thursday evening a colored man answering to this description was arrested at the local N. & W. depot by Reno and Leslie. He gave his name as Thomas Stepp and told the detectives his home was in Pulaski, Va. The detectives claim they identified Stepp by a defective left eye. Stepp was taken to Waverly, Friday, for a hearing, as the burg-

lary was committed in Pike county. The goods stolen were being handled by the N. & W.

## Tired All Over?

Mrs. Kate Metz Miller of Colden, Ill. says: "I was troubled with irregularity... headache... severe pains in the back and the day after... I thought I would try CARDUI and found it did me so much good. I have none of these troubles any more. My mother had been suffering with different ailments, due to change in life. I made her all the time. She began to take CARDUI, taking about five bottles, and she is not troubled with those old ailments any more. I only wish I could induce all sick women to try it and be convinced as I have been." Why don't you try CARDUI? It may be just what you need.

## Hearing Not Completed

Capt. John K. Peyton stated Friday morning that he and his fellow U. S. inspector, Capt. Geo. W. Dameron, had not finished their investigation of the misconduct charges against Capt. Tom Roush, the hearing of which was held at the Washington hotel Thursday evening.

Capt. Peyton said that Capt. William Bay, of Ironton, and some other witnesses still remained to be examined. Capt. Roush made the claim at the hearing that he had tendered his resignation as commander of the packet Greyhound the evening before the day when he and Capt. Bay got into a wrangle aboard the Ironton wharfbont.

Members of the crew of the Greyhound are said to have testi-

ified somewhat favorably for Roush.

The real purpose of the investigation is to determine whether Capt. Roush's act warrants a revocation of his license. The next hearing will be held in Cincinnati.

# Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 52.

Dear Miss Wise—I am very much interested in the human body, so would like to know how far one's blood travels in the course of a day.

The blood travels about 125 miles a day.

Miss Wise—I am a daily reader of The Times. I am coming to you for a little information. Will you please tell me where to direct a letter to the state board of education so they will get it?

Address your letter to Mr. Frank B. Pearson, superintendent of Public Instruction, State House, Columbus, Ohio. We have no state board of education.

Dear Dolly—We are three school chums. One of us has red hair, another has black curly hair, and the other has yellow hair. Which one do you think has the prettiest hair?

M. E.  
Any color of hair is pretty if it is well taken care of. However, if you really want me to decide which is prettiest, come down some day and I'll tell you.

Dear Dolly—I have a plush coat which has been hanging up all summer and has slick places on it. I would be very thankful if you would tell me what would take them off.

Yours truly,  
J. D.  
Try steaming it. Hold the slick places over the spout of a boiling tea kettle, then brush with a whisk broom or stiff brush.

Dear Dolly—What would you do when another girl takes a fellow away from you, and she is my friend and I hate to say anything to her when she goes to talking about him. Please give advice. BLUE EYES.  
A man who is that easily won away is not worth worrying about. Try and find another beau and let your friend have him.

Will the man who wanted to meet the girl who signed her name "Guess," please send me his name and address.

A True Wife—A divorced wife cannot claim any of her former husband's estate, so you need not let that worry you. If you had not kept nagging at him, no doubt he would

have fixed things up long ago. It looks very much like you care more for his insurance than you do for him. Don't say anything more about it. The law will give you one-third of his estate, will or no will. About your little boy, I do not believe any human being could mistreat a helpless little child. Not having any of his own, I should think he would be more than glad to be a father to yours. I may be mistaken, but I'll wager if you treat your husband right he will treat you the same way. Try it and see.

Dear Dolly—Will you please tell me what will take mildew out of a white voile dress. A READER.  
Salt and lemon juice will take the mildew out. Oxalic acid, or chloride of lime, will also do the work. Do it quickly and rinse thoroughly afterwards as the last named will eat a hole in the goods if left in too long. Will print your recipe later.

Mr. and Mrs. P. J. Costello of Mt. Joy announce the marriage of their daughter Miss Irene to Mr. C. J. Hoffman of Pittsburgh.

Miss Violet Mathiott, daughter of Mr. and Mrs. M. D. Mathiott of 537 Second street will leave on October 4 for Washington, D. C., where she will enter the Fairmont School for Girls. She will take a literary course.

Mr. and Mrs. L. L. Wamsley, of Front street, left Wednesday for Cincinnati to visit her son, John Osborne, and family. Mr. Osborne's little son, Johnnie, who was run over a short time ago, is doing nicely.

Mr. Clinton D. Murray (Emma Questel) and children, of Indianapolis, Ind., are visiting her twin sister, Mrs. Albert Semmelbeck, of Ninth street.

## What to Do for Eczema

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 25c or \$1.00 for extra large size, get a bottle of Zemo. When applied as directed, it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is dependable and inexpensive. Try it, as we believe nothing you have ever used is as effective and satisfying.

Zemo, Cleveland.

Marcia—Do not marry a man who in any way tries to make you think it is your duty. Don't allow him to say he cannot live without you. It is untrue. No one person is absolutely essential to the life and happiness of another. Don't let anyone try to impose this idea upon you. People allow it to work so upon the imagination that it is a dangerous thing. In fact some have been known to grieve to death because of their imagined affection for another. A real man buckles up and knows that he is good for something, just as a real woman does. Why not postpone your wedding until you can make up your mind what to do without asking the advice of a stranger. Not knowing you or your intended husband, I cannot very well advise you what to do. However, I will say that if you would get interested in some kind of work that would get your mind off your love affairs for awhile, you would be a happier woman.

## SOCIETY

Mr. and Mrs. E. A. Hodge, of the Hotel Portsmouth, and guests, Mr. and Mrs. Peter Natus, of Gallipolis, have returned from a visit at Blue Creek, Adams county.

Miss Louella McMullen, of South Portsmouth, has resumed her duties as saleswoman at A. Brunner & Sons' downtown dry goods store, after a two weeks' vacation.

Mr. and Mrs. C. M. Wamsley, of Stout, O., were guests at the Washington Hotel Thursday night.

Mr. and Mrs. V. V. Crawford have moved back to this side from South Portsmouth. Mrs. Crawford is an invalid from paralysis.

Meet Me At Nye's Fountain, 1211  
Mr. Vaughn Finney has as guest his cousin, Mr. Gay Friel, of near Harrisonville.

Miss Helen Rowe entertained about twenty of her friends last evening with a party given as a farewell to Miss Florence Daehler, who will leave in a few days to enter Miami University. The evening was very enjoyably spent in music and games, consisting of a penny contest and guessing the names of the various countries' flags. Dainty refreshments of ices and cake were served on the lawn.

The Queen Esther Circle of Trinity church held a most delightful social meeting last evening at the home of Mrs. Howard Sellards, on Offshore street, with twenty-five members present. This meeting was given as a farewell to Miss Hubert, who will soon leave for Washington, D. C., to enter the National Training School for Home Missions. Miss Hubert was directress of the circle and the members presented her with a dainty gold pin as a remembrance and an appreciation of all she has done for the class. Mrs. Ralph Gardner was appointed to take Miss Hubert's place as directress. Dainty refreshments were served by the hostess and a general good time was enjoyed by all.

The Dorens Class of the Fourth Street Methodist church will hold a bake sale tomorrow evening in market.

Mrs. Algernon McBride and little son, Griggs, who have been spending a few days with Mrs. McBride's mother, Mrs. Sarah Loeck, of Offshore street, returned to their home in Sardinia, Wednesday. They came here to accompany home Miss Helen McBride, who has been spending the summer with her grandmother.

Miss Helen Sprague will be hostess of the Opportunity Auxiliary of the Second Presbyterian church Monday evening at 7 o'clock. The program will be as follows: Devotional, "Strength"—Mrs. F. E. Feiger.

Paper, "Bishop of the Niger"—Neil Emmert.  
Paper, "A Believer in Black Folks"—Mary Watkins.  
Talk Rally—Mrs. Henry Heer.

Mrs. J. E. Gerkens and daughter, Mary, have returned from a visit in Columbus.

Misses Pearl Nagel and Naomi Call have returned from a two weeks' visit with relatives in Columbus. They also were guests at a house party in Chillicothe at the home of Miss Mary Lucy, who will soon move to Detroit.

Mrs. Ed Stevens, of Fifth street, will entertain the Tuesday Sewing Club next Tuesday afternoon, September the twelfth.

Mrs. John Sivill, daughter, Maudine, of Govea, Oklahoma, and sister, Miss Cynthia Stewart, of Ironton, are guests of Mrs. Terry Davenport, of Third street.

Sister M. Seraphim, who has been visiting her parents, Mr. and Mrs. Henry Crouse, left last week for Minnesota, where she will teach music.

Mr. and Mrs. John Hoover, of Fifth street, who have been visiting in Wheelersburg, have returned home.

The Ringlow Reading Circle will meet at the home of Mrs. J. M. Graham, of Washington street, Monday afternoon, at 2:30 o'clock.

Miss Katherine Cassidy, of Seventh street, is in Ironton teaching school at the St. Lawrence school.

The final conference of the union of Women's Foreign Missionary Societies was held this morning at 8:30 a. m. at the Manly church. These meetings have been considerably well attended. This morning's program was as follows:

Memorial Service—Mrs. C. E. Lantry.

Minutes.  
Importance of Children's Work—Miss Alice Daulton, Mrs. Chas. Smith, Mrs. W. B. Anderson, Mrs. Harry Cranston.

Solo—Mrs. C. L. Strecker.  
Reports—King's Herald, Standard and Bearers, L. L. Bearers, Auxiliary.

Reading, "Mrs. Bunt's New Committee"—Mrs. Lex Foster.

Tithing Experiences—Members.  
Jubilee Blue Book—District Corresponding Secretary.

Report of Delegates.  
Reports of District Officers.  
Place of meeting for next year.

Minutes.  
Hymn, "God Be With You 'Till We Meet Again."

The place of meeting for next year has not fully been decided upon as yet, but it will probably be held at the Ringlow church, or at Jackson.

This conference has not been quite so well attended as the one held last year at Wheelersburg.

The Relief Fund Society of the German Evangelical church held a splendid business meeting in the church parlors yesterday afternoon, when they made final plans for their Koru Carnival booth and the Kompani dinner. Their booth will be in front of the Brunner dry goods store, on Gallia street.

## BLISTERS BURNED ON CHILD'S SCALP

Would Itch. Formed Scales Which Caused Unsightly Appearance, Child Very Cross and Fretful.

## HEALED BY CUTICURA SOAP AND OINTMENT

"My little girl's scalp was affected with something like blisters and a thickening of the skin. At first it was a place about as large as a common pea and it would itch and burn and when scratched would run a watery fluid and from this would form scales which caused an unsightly appearance on her scalp. Her hair never grew any. She was very cross and fretful."

"Then I sent for a sample of Cuticura Soap and Ointment and the second application relieved the itching and burning so I purchased one box of Cuticura Soap and one box of Ointment and they healed her." (Signed) Mrs. Charles Cullen, 118 College St., Poplar Bluff, Mo., Aug. 18, 1915.

Sample Each Free by Mail  
With 25c. Skin Book on request. Address post-card "Cuticura, Dept. T, Boston." Sold throughout the world.

Mrs. John Sivill, daughter, Maudine, of Govea, Oklahoma, and sister, Miss Cynthia Stewart, of Ironton, are guests of Mrs. Terry Davenport, of Third street.

Sister M. Seraphim, who has been visiting her parents, Mr. and Mrs. Henry Crouse, left last week for Minnesota, where she will teach music.

# Fall Suits And Dresses By The Hundred

The Westminster Circle of the Second Presbyterian church met last evening with Lillian and Dorothy Friend, of Gallia street. Twenty-two members were present. One new member, Bertha Moore, was taken in. The study of "Around the World With Jack and Janet" was finished. The circle has planned to hold a rally in the church basement on Thursday, October sixth.

Mrs. Frank Appel's class of Trinity Sunday school met last evening at the home of Mrs. Edgar Cook, of Twentieth street, with Miss Adalatz as assisting hostess.

Dr. W. A. Quinn and W. W. Weidner have returned from a fine motor trip to Pittsburgh, starting early Saturday morning at four o'clock, going via Chillicothe, Lancaster, Zanesville, Cambridge and Wheeling, arriving at Pittsburgh at 10:30 Saturday night. They were driving sixteen hours on the way and found the roads fine. They returned via

Wooster, Mansfield, Canton, Delaware, Columbus and Chillicothe, finding these roads very good and the scenery beautiful. They made the round trip of seven hundred miles in thirty-four hours, driving at an average of a little over 21 miles per hour, and making 21 miles on a gallon of gasoline. They did not have one puncture during the whole trip. Dr. Quinn and Mr. Weidner advise any who may be planning to make the trip to Pittsburgh to go by these routes, if they want good roads and beautiful scenery.

## Police Changes

The police officials are busy outlining a new working schedule for day and night patrolmen which it is planned to put into effect next Sunday.

It is the purpose of the officials to reduce the working hours of the patrolmen and create more shifts. Under the present arrangement the five day patrolmen have been working 11 and 12 hours while the night men, sixteen in number have been working only 9 and 12 hours and a goodly part of the time the day men make as many arrests as the night before besides looking after most of the routine work. It is now planned to have the first shift of two day men begin at 4 a. m. to work on duty at 2 p. m., second shift to work from 6 a. m. to 4 p. m. and third shift from 8 a. m. to 6 p. m. while five night men will go on duty at 2 p. m. and work until midnight and 8 others work from 6 p. m. until 4 a. m. No material changes are contemplated in the working hours of the various superior officers.

## Potts And Chucales Buy Temple Theatre

A deal was closed Thursday whereby James F. Potts, proprietor of the Arcana Theater, and Tom Chucales, interested in the "Up-to-date" restaurant, Tenth and Waller streets, became the sole owners of the Temple Theater, located on Eleventh street, near Lawson, and owned by O. E. Smittle. Messrs. Potts and Chucales have taken possession of their new property, which they expect to renovate from entrance to exits and put in elegant condition.

While figures were not given out, it is learned that the theater, which under the management and ownership of Mr. Smittle, has become one of the East End's most popular amusement centers, brought a big price. Mr. Smittle disposed of the theater because of his extensive business interests, he not having the necessary time to devote to the management of the theater and his pocket-billiard parlors, located in the Voolker building, just across the street. He expects, now, to give his entire time to developing his growing business in his pocket-billiard room.

Mr. Potts, it is understood, will be in active charge of the Temple Theater. He stated that he expected to conduct the business along the same high plane as had marked the Smittle administration. The best of attractions will be secured, Mr. Potts having arranged to go to Cincinnati Sunday to do some fall booking for the Temple. He states that new lights will be installed in front and he will no doubt employ the same methods that have resulted in the Arcana theater becoming so popular. Mr. Potts stated that he and Mr. Chucales are well satisfied with their bargain, and that they anticipated doing a flourishing business. They will, no doubt, have their expectations realized. Of course, Mr. Potts will continue to operate the Arcana, dividing his time between the two theaters.

Ask my customers about my work. Brehmer, the Painter. 11f

## We put it up to Hundreds of Dentists

Long before SENRECO was offered to you we submitted it to hundreds of dentists, requesting that they put it to every test. Told them that we believed Senreco to be an unusually good dentifrice, especially as to its cleansing qualities and its remedial action on sore, soft, bleeding gums; in the treatment of Pyorrhea, etc. Submitted the formula and asked them their opinion. They tested Senreco from every angle; some going even so far as to make a chemical analysis—

## And They Voted Yes

With practically one accord—said: "Senreco appeals to me more than any dentifrice I have ever seen." "I cannot say too much for Senreco. It's one of the best I have used." "I can recommend Senreco as the best." "Makes the teeth gleam and is free from injurious ingredients, including dextrin and grit." "I am indeed glad to get a tooth paste that does the work." "Congratulations, you are formulating a dentifrice that gives one a new idea of mouth cleanliness, etc." (These quotations are from the dentists' reports. Originals on file at our office.)

With such endorsements from the men who know why not go to your dealer today and get a tube of SENRECO—25c. Keep your teeth HEALTHY, CLEAN, and protect yourself against Pyorrhea and decay.

A copy of the folder, "The Most General Disease in the World" together with a liberal trial size tube of SENRECO will be mailed you for 4c in stamps. The Senreco Remedia Co., Inc. Dept. B. Masonic Temple, Cincinnati, Ohio.

## CONGRESS VOTES ADJOURNMENT

### To Crush Strike In 48 Hours Says King Of Strikebreakers

### KAISER AT FRONT WATCHES BATTLE FOR COMBLES

#### RECORD BREAKING SESSION HAS CLOSED; APPROPRIATIONS NEAR TWO BILLION MARK

Washington, Sept. 8.—Congress adjourned sine die this morning at ten o'clock, concluding a session, record breaking in many respects, with appropriations, and authorizations for the future running well toward two billion dollars.

Washington, D. C., Sept. 8.—This was the final day of the Sixty-Fourth Congress's first session which began last December. Adjournment took place at ten o'clock. President Wilson went to the capital for the adjournment formalities. Only a small proportion of members were on hand to watch the session die.

At 9:50 o'clock the senate adjourned sine die.

At ten o'clock the house adjourned sine die.

Last night both houses accepted the conference report on the currency revenue bill without record vote and the senate, before recessing an hour after midnight, ratified the Danish West Indies purchase treaty. The general deficiencies appropriation bill also was approved, as reported by conferees.

The session ended without final action on Senator Owen's corrupt practices bill, on which debate persisted in the senate yesterday and last night up to the time the revenue bill report was taken up.

As senators and representatives drifted sleepily from briefings following the adjournment, sessions such as these marked time while awaiting the final formalities of the greatest session of congress in many respects in history.

In closing addresses, while awaiting the arrival of President Wilson, references to the long program of legislative achievement, dominated chiefly by national defense preparations at a cost of more than \$600,000,000, were made. Democrats lauded the record of a session and commended it to the country while Republicans sought to criticize, alleging extravagance in spite of the appropriations for defense.

As the gavel was suspended to signify the end of the session, recollection of the nine months work showed that there had been but one day of the year 1917 for which the government had not appropriated more than \$1,000,000,000 and that expenditures had been made for the grand aggregate of appropriations almost to the \$2,000,000,000 mark.

#### OWEN NOT TO PUSH MEASURE

Washington, Sept. 8.—Senator Owen announced in the senate today that he would not further press his corrupt practices bill at this session but would let it remain the unfinished business before that body and call it up again next session.

#### PLAGUE SPREADS IN TOLEDO

Toledo, O., Sept. 8.—Health authorities expressed alarm last night when ten new cases of infantile paralysis were reported during the day. Victims are being isolated at the city contagious hospital as fast as reported. There are now more than one hundred cases in the city.

ly until the last minute, entered the president's room and Mr. Ashbrook asked them to witness the signature. The president smiled as the two senators hurried away.

At 9:30 o'clock the senate appointed Senators Kern and Smoot to notify the president that congress was ready to adjourn unless he had some further communication to present. They were joined by Representatives Kitchin, Fitzgerald and Mann the house committee and judicial committee awaited on the president at 9:35.

The president commended the leaders on the opportunity for a "well earned rest." Officially he informed them that he had nothing further to communicate to the congress. When they left the president the chief executive was joined by Secretary Lansing.

Senator Kern notified the senate at 9:55 o'clock that the president had nothing further to communicate.

Thereupon Senator Nelson of Minnesota offered a resolution of thanks to the vice president for his impartial conduct in presiding over the senate. The resolution was adopted. Thereupon the senate adjourned sine die at 9:59 o'clock.

The latest telephone wires in Portsmouth are those leading to the TIMES WANT AD department.

#### FEAR PLOT TO BLOW UP NEW YORK SUBWAY

New York, Sept. 8.—Having frustrated the efforts of its striking employees to tie up the subway and elevated railways, the Interborough Rapid Transit Company today turned its attention to its surface lines which have been crippled since the strike was declared Wednesday night. All cars on the so-called "Green" lines representing the greater part of the surface system in Manhattan and the Bronx were withdrawn at 8 o'clock last night after maintaining during the day a service barely twenty per cent of normal.

When the surface cars were started out again at six o'clock this morning the situation was in charge of James T. Waddell, known as the king of strike breakers. Mr. Waddell came here from Chicago last night, making the run by special train in twenty hours. He promised to crush the strike in forty-eight hours.

"I have 3,500 strike breakers here," said Waddell, "and 2,700 of these are now working. They are more than enough to control the situation."

Subway and elevated trains ran last night and this morning as usual. Fearing that the strikers would be able to interrupt this service, thousands of persons yesterday patronized the multitude of jitney automobiles that mobilize at every important center, but today the traveling public returned to its accustomed routes by subway and "L".

A number of elevated trains were attacked during the early morning but in no case was there any approach to a mob riot. Strike sympathizers on the roofs of tenement houses bombarded the trains with bottles and bricks and in one instance with pistols. None of the bullets took effect, but several passengers were injured by missiles and broken glass. The police surrounded the blocks from which the missiles came and searched the roofs but made only a few arrests.

Remors of a plot to blow up the subway caused the police to maintain a watch at every underground station but the subway trains ran during the night and early morning without molestation.

The strike thus far, according to Mr. Waddell, has cost the traction company \$200,000.

#### PURCHASE OF ISLANDS APPROVED BY SENATE; NEEDS THE SANCTION OF DANISH PARLIAMENT

Washington, D. C., Sept. 8.—Since the senate approved last night the Danish West Indies treaty, virtually the only thing that stood in the way today of the acquisition of the islands by the United States was the ratification of the treaty by the Parliament of Denmark, the lower house of which already has approved it. The action of the senate came almost simultaneously with the appointment by the Danish parliament of a committee to consider the negotiations for the sale of the islands to the United States.

The treaty was ratified by the senate without a roll-call, and fewer than a dozen senators voted in the

#### ORDER A PROBE OF AN ALLEGED FOREIGN LOBBY

Washington, D. C., Sept. 8.—A resolution by Senator Curtis proposing an investigation by a committee of three senators of the report that a lobby representing a foreign government had been busy in Washington opposing legislative legislation against Canadian fisheries in the revenue bill, was passed today by the senate.

#### MAN FROM IRONTON DISCOVERS THIEVES FOR TOLEDO POLICE

Toledo, O., Sept. 8.—Fred Marshall, of Ironton, told the police yesterday that when he went in a hotel room to get a job, ostensibly to peddle soap, he was informed that his employment would be to aid in a number of proposed burglaries.

The police raided the hotel room after knocking down Fred Hall, 32, who, the officers say, resisted their entrance and drew a revolver. The police found in the room several bags, suitcases and packages, which, they say, contained loot from houses recently burglarized.

#### SUFFRAGE DELEGATES TO USE VOTING MACHINE IN ELECTING OFFICERS

Atlantic City, N. J., Sept. 8.—Delegates to the National American Woman Suffrage Association in convention here, who say they expect to be enfranchised before many years have passed, are taking time by the forelock and are learning how to vote.

In electing the national officers the delegates are following much the same plan of states where there are state-wide primary laws. The first candidates filed petitions duly signed by a certain number of persons, to have their names placed on the primary ballot. The time for filing nomination papers closed late last night, and today a primary election was held. The two candidates receiving the highest vote for any one office will be placed on the election ballot and will come up for election tomorrow.

In carrying out the election the women are using voting machines and for the last two days delegates have been practicing on the machines in order to be able to vote without making a mistake.

Mrs. Catti has no opposition for president. It is said Mrs. Walter

#### AUSTRIANS ADMIT A RETREAT

Paris, Sept. 8.—Emperor William, according to La Liberté's correspondent at the front is watching in person the fierce struggle that is going on for the possession of Comblès.

The chief gain of yesterday's battle, the correspondent says, was that of the French general, Micheler's forces, which reached the railroad running from Roye to Peronne and held it for a distance of two and one-half miles, with the result that the German line of communications behind the Somme are now entirely in the hands of the entente allies.

Chaulnes, says the correspondent, is only about two-thirds of a mile distant from the French line and is expected to fall at any time.

The capture of Berny-en-Santerre enables the French to dominate Barleux, which is the last point of support of the German second line of defenses and completes the encirclement of Deniemark park, for which a stubborn struggle is going on.

Vienna, Via London, Sept. 8.—Austrian troops have withdrawn before a threatening Rumanian envelopment to the heights west of Olah to Plitzky, southwest of Douara Walra and twenty miles west of the Rumanian border, says the official statement issued at the Austro-Hungarian headquarters.

On the Russian front the Austrian troops between the Zeleza Iapa and the Dniester rivers also have been withdrawn.

London, Sept. 8.—Rumanian troops have occupied Orsova, an important Hungarian town on the Danube, according to a dispatch to The Times from Bucharest today.

An unofficial dispatch from Vienna on Wednesday announced that Orsova had been taken by the Rumanians. Orsova is one of the principal ports on the Lower Danube and has considerable commercial importance. It is a few miles above the Iron Gate of the Danube, where the river leaves Hungary and forms the boundary between Rumania and Northeastern Serbia.

Growing in Wisdom.  
Mabel had developed a really passionate interest in Abraham Lincoln. She had always admired her grandfather, but her admiration deepened to veneration when she learned that the old gentleman had seen Lincoln often.

"And you can really remember Lincoln?" she repeated in awe-struck tones.

"Yes, dear," said grandfather. "You know, I am much older than you."

"How much older must I be before I can remember him?" asked Mabel.

## West Has A Great Chance

The west maintains its best chance since 1910 to re-enter the world series.

When the Red Sox attempt successive assaults upon Chicago, Detroit, St. Louis and Cleveland without success, they are around second base, they must rise to great heights before they ever start home in the lead. With only one club to beat, their outlook would be fairly pink, not to say soothing.

But to beat down three close contenders looks to be upon the verge of a hopeless task.

Detroit, Chicago and St. Louis all play at top speed at home. They will all be climbing through September, when Garvin's club will be battling for an even break. The Red Sox have shown great gameness before, but there is always a limit when the other fellow has a little more stuff.

Eddie Donalds says that Ralph Sharman after joining the Galveston team developed into one of the best outfielders in the league. "Believe me that boy Sharman can surely ride the old pill and he was dangerous every time he stepped to the plate."

When Great Men Meet.

Joseph Jefferson was wont to tell about meeting a modest looking man in a New York hotel who said he had seen the actor with pleasure in a performance at Washington. Jefferson smiled and asked the gentleman's name. "Grant," was the reply. It was the ex-president. Jefferson's embarrassment was intense, but not more acute than that of a famous fellow actor, Booth, when he asked Tompkins for his autograph with a verse and on Tompkins's inquiring what the verse should be answered, "From 'The Brook' or 'The Bridge'." Booth then realized that he had asked for a verse from one of Longfellow's poems.—Harper's.

Omaha, Neb., Sept. 8.—Despite the fact the Chicago Cubs have purchased Earl Smith, Smith will continue to be the name of the left fielder for the Omaha club. But it will be Floyd Smith, not Earl Smith.

Marj has about come to the conclusion that Floyd is going to make good. He's only 20 years old and he's far from a finished player as yet. But he seems to have the goods.

Black Fullerton, famed baseball expert, says the two Boston teams will field it out in the world's series, which we pulled Detroit and the Phils. But we shall see.

The Homeric Controversy.

It was about the year 1705 that the "Homeric controversy" began. About that date P. A. Wolf, in his polemical, argued that the Homeric poems were composed of independent epic songs, collected and arranged by Pindar about 550 B. C. Wolf's theory created a great stir among scholars and poets and inaugurated the fight which culminated most of the learned men of the day. Mr. Andrew Lang, in "Homer and the Epic," 1893, vigorously defended the "one author" theory.

As opposed to the idea of Wolf that the famous poems were composed through ages by many different persons.—New York American.

## Players Are Given Checks

Eddie Donalds and Irish Conwell before leaving Waco Monday evening for Portsmouth learned that it pays to win pennants in the Texas league. Each member of the team was presented with a 240 check by the Business Men's League of Waco before leaving for their homes.

## Slagg Will Help Yale

New Haven, Conn., Sept. 8.—One of Yale's best-known football players, Alonzo Slagg, 28, coach of the University of Chicago, eleven, will assist Head Coach "Bud" Jones in drilling the Yale football players for a short time, it was learned today.

## May Fight in New Orleans

New Orleans, Sept. 8.—An offer of an \$15,000 purse for a twenty-round fight between January 1, for the world's light weight championship between Freddie Welsh, of England, title holder and Johnny Dundee of New York, was telegraphed today by a local radio personality to a Welsh in New York and Dundee in Kansas City.

## Phils Look The Best

The Phils have a great chance to cop the National league pennant. Alexander and Huxley should carry the team through to victory.

Alex is the world's greatest pitcher. He may not be the best that ever lived, but there is not a pitcher in the game today as good as the tall Nebraskan.

His world record of 45 shutouts in one season, made this year, shows just how good he is.

His back, which went lame last fall and crippled him for the world series, will be strong. He has a corking good team behind him—not a flashy outfit, but a steady going team—and he is willing to work his head off to land the pennant.

So, despite the advertisements the owners of the Braves are running advising fans how to get world series tickets in case the Braves win, and despite the fact that Jake Daubert is back in the Brooklyn lineup, the Phils look best.

## Kilbane May Meet Welsh

Cleveland, Sept. 8.—Johnny Kilbane, world's featherweight champion, who Monday knocked out George Chaney, will meet Freddie Welsh in a 10-round bout in Brooklyn, N. Y., provided he gets \$10,000 and a privilege of 33 1-3 per cent. Kilbane's manager received a wire today from a New York promoter asking for terms.

## We put it up to Hundreds of Dentists

Long before SENRECO was offered to you we submitted it to hundreds of dentists, requesting that they put it to every test. Told them that we believed SENRECO to be an unusually good dentifrice, especially as to its cleaning qualities and its remedial action on sore, soft, bleeding gums, in the treatment of Pyorrhea, etc. Submitted the formula and asked them their opinion. They tested Senreco from every angle; some going even so far as to make a chemical analysis—

"Senreco appeals to me more than any dentifrice I have ever seen." "I cannot say too much for Senreco. It's one of the best I have used." "I can recommend Senreco as the best." "Makes the teeth clean and is free from objectionable ingredients, including gum and grit." "I am delighted to get a tooth paste that does the work." "Congratulations you on formulating such a new idea in tooth cleanliness, etc." (These quotations are from the dentifrice experts. Original on file at our office.)

There's more genuine tobacco enjoyment in a rich, mellow, juicy chew of high-grade plug than in any other form of tobacco.

And there's no plug made that is so delicious and appetizing as Old Kentucky. It has the fresh, sweet, mellow taste that Nature gives the tobacco leaf. You get real tobacco flavor in Old Kentucky—and you get it pure.

From the time the ripe Burley leaf reaches our factory, until it goes out to gladden your taste with its rich flavor in golden brown plugs of Old Kentucky, it is kept pure by the most modern methods ever applied to the making of chewing tobacco.

No factory could possibly be cleaner or more sanitary than the great, new factory in which Old Kentucky is made.

For a good chew—get a plug of Old Kentucky.

## THAT KID OF YOURS

That kid of yours is a wonder—but so are all of them. All kids are wonders; they have been since the beginning of time. And they will continue to be to the end of time. In fact, there is not anything in the world more wonderful than a boy, unless it is a girl.

But that kid of yours! Isn't he the finest ever? Why, folks say he looks like you—and that's all that is necessary. Besides, he has such old ways; he is a regular little man. He knows more than any one would dream of his knowing—and he is never at fault. The other boys "pick" on him; that's why he fights at times. Sure, your kid was never to blame in a scrap, no, sir. The kid across the street, or around the corner; he is a terror; but your own kid—why, he would be a marvel of perfection if it were not for the other kids.

And he has a will of his own. Other children are obstinate or contrary, or disagreeable. But yours is only strong-willed. That's the difference between obstinacy and self-will. Yes, he has a will of his own, and is full of curiosity. He wants to know; that's why he tears up the doll of the little girl who has called to play with him. He didn't mean any harm; he just wanted to see whether it was filled with straw or sawdust, and he tore a hole in it to find out. When the boy around the corner destroyed your little girl's doll, it was mischief on his part. He had not been taught right, otherwise he would not have been so rude. But your own little boy did the same thing just because his great throbbing brain craved knowledge, and he had no other way of gaining knowledge.

Then, your own kid is so full of enthusiasm and energy, it is almost impossible to keep his clothes clean. You dress him and start him out and he returns all muddled up and ragged, but it is due to the fact that he is growing so fast, and must have so much activity, he simply can't keep clean. The little blouse was torn by a bad boy he met in the street; your own kid would never tear his clothes if it were not for the other children—rough youngsters with whom he plays.

But, for the moment, let us be honest, and forget it is your own kid. Let's just consider that it is any kid. For, know ye, all of them are holy terrors. That's why they are so interesting; that's why they make such splendid men. That's why they are worth while. If your own kid were as good or as clever as you believe him to be, he wouldn't amount to anything. If he kept as cleanly as you would like him, he would die of cleanliness. If he did not wear out his clothes, and fight and scratch the older boys, and tear holes in the belly of a sawdust doll just to see the sawdust run, why, he would be abnormal. That's why you ought to have a great deal of charity for the other fellow's kid; because the chances are that he is just as good as your kid or anybody else's kid.—Dayton News.

## START THE DAY RIGHT

Start the day right—especially when the weather is trying upon one's nerves. Start it by being in a good humor—by refusing to be annoyed. Don't get excited about anything; there is really nothing exciting early in the morning. Make the most of everything about you—and determine in your own mind that come what may you are going to accept it without complaint, and there will be little cause for complaint.

If we could start the day with a smile, there would be no trouble for us through the hours to follow. If we would refuse to be come peeved, nothing would peeve us throughout the day. There is more in this thing of getting started right than the average man may suppose.

Ever notice a good engineer, how he starts the train. He sits there gazing up the track! He has oiled the engine, and caressed it a little, and gazed at it admiringly. He clasps the throttle with faith in it. But he doesn't jerk it, or pull it recklessly. He presses it slightly, some way, and the muscles in his arms contract gently, and the steam hisses a bit, and the great wheels start to turn as gently as if a child were turning them. They revolve a little faster, and a little faster and the train is under full speed with never a jolt or jerk.

Well, that's exactly the way we ought to start the day. We ought not to expect to get under full speed at the jump. There should be no jolting, no jerking. The wheels ought to move slowly, gently, at the start, and we ought to work ourselves to full pressure as gradually as the engineer gets his train under way. Then we'll find a smooth track and plenty of power, and we'll be able to bring the train into the shed at night with never an injury to a passenger and the machinery in good shape.—Columbus Dispatch.

## BEING GOOD

The true test of a man is to be able to possess great power without abusing it, to keep his own self-made laws, and stick to a pre-determined line of conduct amid the toils and temptations of the world.

It is no trouble to be good when you are alone. The moral law only developed when men began to live together. It is social in its significance, governing not so much individual actions as their bearing on the actions of some one else.

A personality expands and is developed only by contact with other personalities. The hermit in solitude no matter how deep or mystic his meditations and studies can never attain the breadth and depth of the man who amid his fellowmen is broadened by service.

It is easy in this world to live after the world's opinion; it is easy in solitude to live after our own, but the great man is he who keeps with perfect sweetness the independence of solitude in the midst of affairs.—Akron Beacon-Journal.

You'll agree this is the finest climate on earth, at the present writing, so to speak.

The West Side association is going to meet, this week. Let it put a little extra touch on the shibboleth. Paint the West Side white. It needs it, a good part of it needs it and needs it badly.

## THE ART OF BEING ATTRACTIVE

To make yourself attractive express your self. Arouse within yourself the emotion, the feeling, the desire to express good will.

Do not worry for one moment about past failures in self-expression.

Put your real self, your strong desire, into the matter of talking a real interest in people and in the subjects which are near to their hearts and you are bound to become attractive.

It is very necessary in conversation that you focus your attention upon the other person and forget yourself. Do not allow yourself to wonder whether or not you are making a good impression. Just get into the spirit of expressing yourself sympathetically. Put your desire, emotion, feeling into the attempt to be agreeable and keep doing so. Practice the art of agreeable conversation with every man, woman and child you meet. No matter how you feel or how much you may have doubted in the past your ability to be agreeable and interesting—keep practicing, always with a view to drawing the other person out to talk about the subjects which interest him.

Of course, if you are to accomplish anything by this practice you must go into it with confidence and not allow your doubts and lack of self-confidence to take away the results of your efforts.—Wm. E. Towne in the Nautilus.

## Bushy Distinguishes Himself

For ONE TERRIBLE minute Bushy couldn't think of a thing. He and Father and Mother Beaver just stared at each other with wide-open eyes and Little Brother looked at the three of them in dismay. What had happened?

Then Bushy began to remember. He had had an idea. He knew he had had an idea and if only all those wise and wonderful Wiggleskenskens would stop looking at him for a half a minute he would think of it—he knew he would. But they continued to look expectantly and Father and Mother Beaver continued to look as though horror-struck and Little Brother still looked dismayed. What could a fellow do? And then, in a flash, he remembered his idea! Of course! The very thing! And immediately he wasn't afraid any more. No one is ever afraid when he knows what to do.

Bushy faced the Wiggleskenskens and bowed, oh, a beautiful grand flourish of a bow—such a grand bow that all his hesitation before was forgotten and the Wiggleskenskens thought he had just been getting ready for his stunt. And Father and Mother Beaver and Little Brother Beaver, understanding some way that Bushy had found a way out of the difficulty, turned and faced the Wiggleskenskens and bowed, too, grand, flourish bows.

Now just back of where the beavers all sat, the bank of Pinkley Pool rose sharply upward. Bushy had noticed this when they first came to the pool and that was a lucky thing, for he had no time for looking now. All the rest of the edge of the pool was flat as a pancake, just this one side had a pretty little bank.

Up this bank the newcomers climbed; Bushy with his head full of plans; Father and Mother Beaver because they couldn't think of anything else to do and Little Brother

All the rest of the edge of the pool was flat as a pancake.

wiggleskenskens were looking on so solemnly—so very solemnly. "When I say go," continued Bushy, "put your tail flat down on the ground for a rudder, give yourself a little wiggle and slide! Slide right out into Pinkley Pool!" Mother Beaver gave a gasp! Father Beaver started to speak, but he saw the Wiggleskenskens—and what could he do? He sat down and did as he was told; he did and so did the others! "Ready!" said Bushy in a big, breathless whisper. "Go!" And would you believe it? Those four beavers slid skidding down that bank and out into the middle of Pinkley Pool, they did! And all the Wiggleskenskens jumped and shouted and yelled, "Good! Good!"

# NEW-YORK-DAY-BY-DAY

New York, Sept. 8—Six years ago Earl Carroll was a program boy in a Pittsburgh theatre. Four years ago he came to New York with an empty stomach and an empty pocket-book. He almost hugged Leo Feist when he gave him a \$10 a week job in his music publishing house.

Today Earl Carroll is making more than \$1,000 a week writing songs. This sounds like the flight of a Broadway press agent, but I know Carroll and I am not betraying any confidence in telling that three weeks ago I saw checks coming in for a week's royalties and totaled as I remember it, \$11,214.

He has two shows that have not been brought into New York, but are making him a fortune in Chicago and in Los Angeles. They are "So Long Letty" and "Canary Cottage." He is happily married to Marcelle, a French actress, who is well known in film land.

They have a quaint little studio apartment above Bantano's downtown cafe where Carroll writes his music and lyrics. He is 23 years old and he looks like a rich rah boy fresh from college. He does not smoke and he does not drink.

His besetting sin is his greed for ice cream. I saw him order a horrendous concoction in a cafe that he called Baked Alaska. The base is cake covered with meringue and then expertly baked until the meringue is browned.

New Yorkers are beginning to believe that it will be necessary for the common sense of the community to call a halt soon upon the activities of the health boards. They are persistent in their efforts to prolong life by actually making life not worth living.

The injunctions and restrictions issued during the past year in New York have turned sanitation into tyranny—but the people stood for it until the paralysis plague broke out and then swept out of the grasp of doctors and spread not only all over New York, but over the country.

The latest hygienic spurge is an agitation to force all soda fountains

to have paper cups. There are a great many people who do not like soda water out of paper cups, and they will possibly quit drinking soda water as a result.

The Ink Pot is the name of a new weekly publication from Bohemia—that is to say from the Greenwich Village Corrugated Brow Belt. It seems to be about the sanest publication that ever came there and the editor does not boast of living in a garret.

It appears that he occasionally treats himself to a hair cut and is not unfamiliar with the plunge and shower. In the first issue the editor says Greenwich village is an interesting place, and it probably would be if so many cub writers didn't refer to table d'hôte wine as "red ink" and so many unwhipped lunatics didn't mistake dyspepsia for genius and pass as "intellectuals."

There is another thing about the Ink Pot that is appealing. It is frank. Across the cover page is the line: "The Ink Pot carries fewer advertisements than the Herald and World combined."

There is an actor on Broadway who eats his breakfast each afternoon at 1 o'clock in a cafe near the Metropolitan Opera House. For six years he has dined there and each afternoon his meal consists of a dill pickle, a slice of bread and a glass of lemonade. Ten years ago he weighed 250 pounds. Now he weighs 147, but the diet, it is said, has ruined his health, but he will not give it up. "I guess I'm a dill pickle fiend," he says.

Be Kind to Home Folks  
Be kind to thy father, for when thou were young  
Who loved thee so fondly as he?  
He caught the first accents that fell from thy tongue,  
And joined in thy glee.

Be kind to thy mother, for, lo on her brow  
May traces of sorrow be seen;  
Oh, well may'st thou cherish and comfort her now,  
For loving and kind hath she been.

Be kind to thy brother, his heart will have earth  
If the smile of thy joy be withdrawn;  
The flowers of feeling will fade at their birth  
If the dew of affection be gone.

Be kind to thy sister, not many may know  
The depth of pure sisterly love;  
The wealth of the ocean lies fathoms below  
The surface that sparkles above.

"If he does, I'll send him back to bed. I warned him not to lug any more baggage today."

**An Old, Old Story**  
Here is an old, old story. It has the same subtle charm, aroma, in it which it had when we heard it, ten years ago. A small boy, much petted, grew restless in his home, and stole forth one morning, to see the world. He trudged over two townships besides his own, and came back, weary and hungry, late in the day, feeling that he had been long away and traveled far. His family, being busy, did not make the joyous stir over his return which he had expected. He was a little piqued at being so taken for granted. When the pet cat sauntered into the room, he glanced at his playmate with an air of indifference, and remarked: "I see you've got the same old cat."

Mr. Green's radish bed had been severely attacked by bugs, and he sought advice for their extermination. A neighbor advised him to place salt between the rows of plants.  
"Did you do as I suggested?" queried the neighbor on meeting Green a few days later.  
"I did!" snapped Green grimly. "I put the salt down one evening, and, bless my soul, when I got up next morning the bugs were pulling up the radishes, dipping them in salt and eating them quite contentedly!"

# INDUSTRIAL PARADE TO BE MADE K. K. FEATURE

The Industrial parade is going to be one of the biggest things at the Greater 1916 Korn Kurnival. John McMillan, chairman of the committee on arrangements, Albert Marting, chairman of the parade committee and R. E. Thomas, secretary of the Business Men's Association, have been working upon the formation of the parade for several days.

Manufacturers, wholesalers, retailers and all citizens seen have consented to enter the parade. Many firms have already signified their intention of entering. Many expect to have their employees in the line of march. It is to be a gigantic representation of the industrial and commercial life of Portsmouth.

A meeting will be held this evening at seven-thirty o'clock at the Board of Trade offices, Masonic Temple, for the purpose of appointing aides for the different divisions and to select the line of march.

## Detectives Arrest A Negro Accused Of Depot Robbery

On Tuesday, July 11, the railroad station at Glen Jean, Pike county, used as a transfer station by the D. T. & L. and N. & W., was burglarized. Eleven pairs of shoes, four shirts and other wearing apparel was stolen. Part of the shoes were brought to this city and sold to a second-hand dealer, who furnished names as Thomas Steppe and told the detectives his home was in Pulaski, Va. The detectives claim they identified Steppe by a defective left eye.

Steppe was taken to Waverly, Friday, for a hearing, as the burglary was committed in Pike county. The goods stolen were being handled by the N. & W.

## Police Changes

The police officials are busy outlining a new working schedule for day and night patrolmen which it is planned to put into effect next Sunday.

It is the purpose of the officials to reduce the working hours of the patrolmen and create more shifts. Under the present arrangement the five day patrolmen have been working 11 and 12 hours while the night men, sixteen in number have been working only 9 and 9 1/2 hours and a goodly part of the time the day men make as many arrests as the night before besides looking after most of the routine work. It is now planned to have the first shift of two day men begin at 4 a. m. to work up to 2 p. m., second shift to work from 6 a. m. to 4 p. m. and third shift from 8 a. m. to 6 p. m. while five night men will go on duty at 2 p. m. and work until midnight and 8 others work from 6 p. m. until 4 a. m. No material changes are contemplated in the working hours of the various superior officers.

## Mr. Harper Explains About Zaph Sewer To Health Board

Inside information concerning the construction of the Zaph sewer in Sunnyside addition was given by City Engineer Samuel G. Harper, in a short talk before the Board of Health. The meeting was held Thursday afternoon.

The city engineer had been called before the board for some facts relative to the installation of a sanitary sewer on Chillicothe street, between Tenth and Eleventh streets. One of the members inquired if the sewer could not be constructed at once, so that the citizens could get relief from unsanitary conditions.

The engineer walked over to the side of the room, closed a door and resumed his former position.

"The committee on streets looked at it like you gentlemen," said Mr. Harper. "It takes considerable time to get the ordinance required ready. It takes possibly two weeks for the estimates to be accepted. Then there is another four weeks before the legislation is ready and possibly another two weeks before the contract is awarded."

"The street committee said in the beginning that when we got a petition to build a small sanitary sewer, which was needed at once, that the thing to do would be to go ahead and build it; then bring in the legislation. The sewers are all built by schedule. It does not mean any more money to the contractor. There is not a cent difference between this method and when the contract is awarded. The other way we make the estimate and appropriate the money, then later, if there is too much money, we make another ordinance transferring it back.

"It eliminates a long, endless piece of red tape and gives the people relief. The street committee told me to put in such sewers without the usual legislation and that I should notify them. They have been. The other way it is six or seven weeks before the sewer contract can be awarded. This way, the sewer is in the ground and in use before the legislation is passed.

"With all due respects to the mayor, I don't care to get into the newspapers anymore. When a gentleman takes a crack at me, I expect to crack back."

"This is the way the Zaph sewer for which I have received criticism," concluded the engineer.

"There was a big hullabaloo raised about the Zaph sewer," declared Mayor Kaps. "Last year a \$5,000 sewer was built in the Sunnyside addition along Sunset avenue. This work was on private property, without the owner's knowledge. The work was paid for in December and it was completed in January. We have a precedent to go by, if we want it."

The mayor then explained that it was the policy of his administration to accomplish the best results with the means possible.

In a report on bacteries inspected, Dr. W. W. Smith, health officer, stated that the William Carter Bakery, New Boston, had been found in good condition. New screens were ordered to be installed. The repairs ordered installed at the Adams and Bender bakeries have been installed. A rigid inspection of tenement buildings will be the next work taken up by the board.

The employment of city scavengers to clean the city garbage was proposed by Mayor H. H. Kaps. The members of the board were asked to investigate this idea, which, the mayor says, is being successfully operated by other cities.

Concerning unsanitary conditions existing on their properties, C. W. Hannah, 2129 Eighth street, William Barber, 629 Front street, and Miss Vere Crawford, 425 Second street, will be given ten day notices to comply with instructions of the board. Resolutions were passed allowing the foregoing time.

J. H. Goodpastor, city dog winder, and the members of the board are at variance over the bill for August. Goodpastor says he removed 64 dogs, while the chemical works claims he only submitted forty-two. A voucher for twenty-one dollars, payment in full for 42 dogs, was allowed. The other 22 cases are to be investigated.

Dr. W. W. Smith reported 2 cases of diphtheria, 7 cases of scarlet fever, 3 cases of typhoid fever and 95 unsanitary conditions inspected. The schedule allowed was \$274.73.

City officials express confidence that they will settle the Zaph sewer controversy and the matter of opening Twentieth street from Chillicothe street to Sunset avenue at the adjourned meeting of city council next Wednesday night.

Director Ralph Calvert of the public service department, explained to council at its meeting last Wednesday evening his reason for holding up payment of the Zaph sewer. He said he was absolutely ignorant of the construction of the sewer, not having authorized it himself and that he had been averse to paying for it until the alley through which it run was first dedicated to the city, unless council should raise no objection to the payment.

Mr. Calvert was assured by council that inasmuch as the legislation had been prepared, the money appropriated and with the possibility of the parties involved in the dispute regarding Sunset avenue getting together at an early date it had no objection to him paying for the sewer work. Mr. Calvert then declared his intention of presenting the voucher amounting to \$345.07 to the city auditor for payment.

## Potts And Chucales Buy Temple Theatre

A deal was closed Thursday, whereby James F. Potts, proprietor of the Arcana Theater, and Tom Chucales, interested in the "Up-to-Date" restaurant, Tenth and Waller streets, became the sole owners of the Temple Theater, located on Eleventh street, near Lawson, and owned by O. E. Smittle. Messrs. Potts and Chucales have taken possession of their new property, which they expect to renovate from entrance to exits and put in elegant condition.

While figures were not given out, it is learned that the theater, which under the management and ownership of Mr. Smittle, has become one of the East End's most popular amusement centers, has brought a big price. Mr. Smittle, disposed of the theater because of his extensive business interests, he not having the necessary time to devote to the management of the theater and his pocket-billiard parlors, located in the Woolker building, just across the street.

Mr. Potts, it is understood, will be in active charge of the Temple Theater. He stated that he expected to conduct the business along the same high plane as had marked the Smittle administration. The best of attractions will be secured, Mr. Potts having arranged to go to Cincinnati Sunday to do some fall booking for the Temple. He states that new lights will be installed in front and he will no doubt employ the same methods that have resulted in the Arcana theater becoming so popular. Mr. Potts stated that he and Mr. Chucales are well satisfied with their bargain, and that they anticipated doing a flourishing business. They will, no doubt, have their expectations realized. Of course, Mr. Potts will continue to operate the Arcana, dividing his time between the two theaters.
